Day Trading Money Management. Day trading as a business can be very profitable. It is probably the safest form of investing, as you are focusing on a small number of positions, you are not holding any positions overnight and you are able to enter and exit trades with pinpoint accuracy. However, many day traders find themselves losing due to poor day trading money management.

Money management is a defensive concept. It keeps you in the game to play another day. For example, money management tells you whether you have enough new money to trade additional positions. Don't confuse money management with stop placement. Stop placement does not address the how much question. Money management is risk management. Risk management is the difference between success or failure in trading.
