Vidal Sassoon's extraordinary life has taken him from an impoverished East End childhood to global fame. The father of modern hairdressing, his slick sharp cutting took the fashion world by storm and reinvented the hairdressers' art. Before Vidal Sassoon, a trip to the hairdressers meant a shampoo and set or a stiffly lacquered up-do that would last a week - or more. After Vidal Sassoon, hair was sleek, smooth and very, very stylish. Along with his lifelong friend and partner in style, Mary Quant, who he first met in 1957 and who to this day sports a Sassoon-style geometric bob, he styled the 1960s. As memorable as the mini - be it car or skirt - he is one of the few people who can genuinely be described as iconic. His memoirs are as rich in anecdote as one might hope and full of surprising and often moving stories of his early life - his time at the Spanish & Portuguese Jewish Orphanage in Maida Vale, fighting Fascists in London's East End and fighting in the army of the fledgling state of Israel in the late Forties. And then there's the extraordinary career, during which he cut the hair of everyone who was anyone, launched salons all over the world, founded the hairdressing school that still bears his name and became a global brand, with Vidal Sassoon products on all our bathroom shelves.

This book is devoted to the fascinating superfamily of plant ATP-binding cassette (ABC) transporters

and their variety of transported substrates. It highlights their exciting biological functions, covering aspects ranging from cellular detoxification, through development, to symbiosis and defense. Moreover, it also includes a number of chapters that center on ABC transporters from non-Arabidopsis species. ABC proteins are ubiquitous, membrane-intrinsic transporters that catalyze the primary (ATP-dependent) movement of their substrates through biological membranes. Initially identified as an essential aspect of a vacuolar detoxification process, genetic work in the last decade has revealed an unexpectedly diverse variety of ABC transporter substrates, which include not only xenobiotic conjugates, but also heavy metals, lipids, terpenoids, lignols, alkaloids and organic acids. The discovery that members of the ABCB and ABCG family are involved in the movement of phytohormones has further sparked their exploration and provided a new understanding of the whole family. Accordingly, the trafficking, regulation and structure-function of ABCB-type auxin transporters are especially emphasized in this book.

This timely reflection on male identity in America that explores the intersection of fatherhood, race, and hip-hop culture “is a page-turner...drenched in history and encompasses the energy, fire, and passion that is hip-hop” (D. Watkins, New York Times bestselling author). Just as his music career was taking off, Juan Vidal received life-changing news: he’d soon be a father. Throughout his life, neglectful men were the norm—his own dad struggled with drug addiction and infidelity—a cycle that, inevitably, wrought Vidal with insecurity. At age twenty-six, with barely a grip on life, what lessons could he possibly offer a kid? Determined to alter the course for his child, Vidal did what he’d always done when confronted with life’s challenges—he turned to the counterculture. In *Rap Dad*, the musician-turned-journalist takes a thoughtful and inventive approach to exploring identity and examining how today’s society views fatherhood. To root out the source of his fears around parenting, Vidal revisits the flash points of his juvenescence, a feat that transports him, a first-generation American born to Colombian parents, back to the drug-fueled streets of 1980s–90s Miami. It’s during those pivotal years that he’s drawn to skateboarding, graffiti, and the music of rebellion: hip-hop. As he looks to the past for answers, he infuses his personal story with rap lyrics and interviews with some of pop culture’s most compelling voices—plenty of whom have proven to be some of society’s best, albeit nontraditional, dads. Along the way, Vidal confronts the unfair stereotypes that taint urban men—especially Black and Latino men. “A heartfelt examination of the damage that wayward fathers can leave in their wake” (*The Washington Post*), *Rap Dad* is “rich with symbolism...a poetic chronicle of beats, rhymes, and life” (NPR).

The political activist and founder of "POZ" magazine recounts his experiences in New York during the height of the AIDS epidemic, his own transforming diagnosis with HIV, and his efforts as the executive director of the Sero Project.

Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production.

In an appearance on "The Dick Cavett Show" in 1980, the critic Mary McCarthy glibly remarked that every word author Lillian Hellman wrote was a lie, "including 'and' and 'the.'" Hellman immediately filed a libel suit, charging that McCarthy's comment was not a legitimate conversation on public issues but an attack on her reputation. This intriguing book offers a many-faceted examination of Hellman's infamous suit and explores what it tells us about tensions between privacy and self-expression, freedom and restraint in public language, and what can and cannot be said in public in America.
