Airbus A319/320/321 Notes

In designing new aircraft, Airbus always seeks the input of customers and those who handle the jetliners on a day-to-day basis. One of the best illustrations of this approach was the global working group established when Airbus designed the A380, which ensured the world ' s largest airliner ' s compatibility with airports around the globe from the day it entered revenue service.

Product and technical illustrations should be kept in a simple line style. Apply two stroke weights as outline, the thicker stroke should be double weight of the thin stroke. Limit to one fill colour from the Airbus colour palette for accentuation. When illustrations are applied on coloured background make sure to create a good contrast for the outline and accentuation colour.
