Entrepreneurship and innovation are arguably the main drivers of economic development today. This book explores the two in depth, at both the national and regional levels, using a variety of methodologies. The expert contributors discuss the subject from a policy perspective, with case studies from a host

This edited collection is an interdisciplinary study of gems in the early modern world. It examines the relations between the art, science, and technology of gems, and it does so against the backdrop of an expanding global trade in gems. The eleven chapters are organised into three parts. The first part sets the scene by
