"Australian Corporate Law, 6th Edition has been designed specifically for Australian law students undertaking corporations law as part of their business or commerce

# Online Library Australian Corporate Law 4th Edition

degree. This text aims to reduce the complexity of corporations law for students by providing clear explanation of legal principles and explaining how corporate law operates within the broader business context."-- Wolters Kluwer CCH Website.

Annotation. Business and Corporations Law 4th edition introduces students to the foundations of the Australian legal system and the principles that govern contract and corporations law, business structures, and management of companies. It provides an overview of financial reporting and auditing and the foundation concepts pertaining to receivership, voluntary administration and liquidation. This book also explains in clear and plain language the nature of corporate membership and the duties of directors tasked with running the business affairs of the company. To support learning of course content within the broader business context, this title includes chapter summaries, margin notes, key cases and legislation, diagrams and flowcharts. It also comes with a suite of online resources for both students and lecturers. Features Chapters 8, 9, 10 and 11 have been revised extensively, with some material being redistributed between chapters to achieve parity across the book's twelve-chapter format. New material on directors, company secretaries, equity versus debt financing, shares and debentures, oppressive conduct and the whistleblowing protection regime has been added. Additional internet references for further reading and end-of-chapter questions are included where appropriate.

Introduces corporate law in Australia with authoritative, contextual and critical analyses of the law of corporations and

financial markets.

The third edition of *Company Law Perspectives* maintains previous editions' focus on extracts that engage the reader in the broader business context in which the law operates. The law is updated, more detail is provided in relation to certain existing cases and new cases are introduced. The most recent ASX Corporate Governance Principles, recent issues involving ASIC, and the impact of the Insolvency Law Reform Act 2016 (Cth) and the Corporations Legislation Amendment (Deregulatory and Other Measures) Act 2015 (Cth) are some of the inclusions in this edition. This edition adds three new chapters outlining the broader legal framework in which the corporate law operates including, the legal system, the law of contract and the law of tort. These chapters provide an introduction to the way in which the law approaches rights and obligations generally and form a useful foundation for the more detailed law relating to companies that follows.

Statistics are included to show the effects of the application and impact of the law, including female board representation, insolvency outcomes and ASIC's enforcement activity. The range of sources include: the Corporations Act 2001 (Cth); judgments; ASIC Information Sheets and Media Releases; newspaper commentary; and scholarly legal journal articles. Each source has a different role to play in the practice and perception of the corporate environment and their inclusion supports the contextual approach of *Company Law Perspectives*. With its clear and succinct style, and its multidimensional approach, *Company Law Perspectives* provides a solid and accessible framework for learning and understanding company law.

Australian Corporate Law, 5th edition has been designed specifically for students studying corporations law as part of

# Online Library Australian Corporate Law 4th Edition

their business or commerce degree. This text aims to reduce the complexity of corporations law for students by providing clear explanation of legal principles and explaining how corporate law operates within the broader business context. It does this within a specifically designed learning framework that will enhance student learning and understanding of the presented material:

- o Key Statement and Key Cases highlight precedents and important cases
- o Case Examples present topical issues to help the reader see the law at work in a broader commercial context
- o Revision Questions and Problem Exercises help reinforce learning
- o Glossary notes in the margin ensure that each term is immediately understood
- o Further Reading provides a springboard for deeper learning
- o Flowcharts are presented to assist in visual learning

New to this Edition

- o Significant recent new cases in the James Hardie appeal, the Bell appeal and other recent appellate decisions
- o Recent legislative amendments, including business names legislation, executive remuneration and continuous disclosure
- o Additional cases and new case studies

Updated to include recent important developments in Australian intellectual property law, this is an essential text for students and professionals.

Corporations Law: In Principle, 10th edition, continues its tradition of being one of the most easy to understand texts on corporate law in Australia. Since the last edition, there have been many significant developments in both legislation and case law as a result of a range of government reviews and administrative changes.
