Boatbuilding with Plywood by  
Glenn L. Witt  
In a nutshell Stitch and

# Access Free Boatbuilding With Plywood

glue boatbuilding has 4 major steps. Plywood parts of the boat are measured and cut according to plans. Small holes are made around the edges of the pieces. Wire is used to temporarily stitch the boat parts

# Access Free Boatbuilding With Plywood

together by stitching the plywood through the small holes. It's very much like putting a puzzle together or sewing clothe.

Stitch and Glue Boatbuilding  
method using Plywood and

# Access Free Boatbuilding With Plywood

Epoxy

When starting on my boatbuilding journey I was primarily looking to build a plywood on frame boat, and as expected this method is the main focus the book covered in great detail.

# Access Free Boatbuilding With Plywood

Many options for stems, chine logs, cabin sides and many other boat components are outlined and it would have been nice to see photos of more of them rather than just line drawings.
