Buying New vs. Used. One way to get closer to the convertible of your dreams (or other higher-end car) is to take a look at used cars. An older car with low mileage may be hard to find, but can be a great deal. Another benefit of buying a used car, especially if you are a new driver, is that the car will likely already have a few dings and dents.

Describes the systems and parts of gasoline-powered, diesel, electric, hybrid, and alternative propulsion automobiles.

Road traffic injuries are a neglected global pandemic. Up to 50 million people a year worldwide are injured or disabled in car accidents. The deleterious impact on the global economy is immense. Thousands of those injured die of opiate overdoses, trying to deal with chronic pain. The post-accident life of a survivor is all too often devastated by spinal or severe orthopedic injuries, depression, anxiety, PTSD, sleep disturbances, mild episodic or chronic pain, and/or a traumatic brain injury that can cause personality changes, cognitive and memory impairments, and debilitating fatigue. A substantially reduced quality of life with career changes and setbacks, broken and overstressed relationships, and financial hardships that continue for many years, often ensue. First Responders, healthcare providers, the survivors' community and to the largest degree, the survivors' family, are forced to deal with the staggering impacts. Auto accidents can dramatically alter lives, forever. Where do survivors and their families go for help? How do survivors heal and get their lives back? Everyone is desperate for hope and evidence-based solutions to manage disabling conditions and ultimately reclaim their lives. This is the first book to offer comprehensive, evidence-based information to both the survivors and their caregivers on understanding, managing, and healing physical and emotional traumas sustained in auto accidents. Based on James Zender's more than fifteen years' experience as a clinical psychologist specializing in auto-accident trauma care, *Recovering From Your Car Accident* leads survivors and their families through the extensive process of emotional and physical recovery. With empathy and compassion, Dr. Zender explains how to conquer the multitude of challenges that often result from auto accidents, including managing pain, depression, and anxiety, addressing concerns about the future and finances, personality changes, emotional and cognitive dysfunction, post-traumatic stress, traumatic brain injury, and strained personal relationships. Through stories recounted by Dr. Zender's patients, survivors will learn that they are not alone and that there is hope for a better tomorrow. Policymakers will gain insight into accident prevention and will be inspired to implement policy improvements to better meet the needs of the auto accident community. Helpful tips throughout this book and a resource section featuring the best online and community support options will aid survivors and their families with rehabilitation. *Recovering from Your Car Accident* will assist survivors with rebuilding their lives and discovering new ways to thrive.

How to Paint Your Car reveals the techniques, tricks, and technology behind automotive painting through 400 color photos, clear captions, detailed text, and step-by-step how-to sequences. You'll learn the latest information about paint chemistry, waterborne paints, spray guns, body fillers, surface prep, site prep, as well as respirators and other safety gear that every automotive painter must know. With step-by-step detail, you'll learn how to properly prepare your car for paint work, including minor bodywork, surface preparation, rust removal, masking, priming and final coating. How to Paint Your Car also includes information about custom touches and effects as well as how to care for your paint after application, including information on buffing compounds, waxes, and other care products. Everything you need to know to feel comfortable and confident in undertaking your own paint project, whether a touch-up job or a complete respray, is covered in How to Paint Your Car.

As featured on Fresh Air with Terry Gross A do-it-yourself guide to auto maintenance, roadside emergencies, and the real scoop on how women can get honest car service at the garage, from engineer turned auto mechanic and award-winning entrepreneur Patrice Banks. Do you feel lost when explaining your car problems to a mechanic? Do you panic when something goes wrong with your ride? Have you felt like you were being overcharged or pressured into unnecessary add-ons at the auto shop? Fear no more: *The Girls Auto Clinic Glove Box Guide* has got your back. So many women feel powerless, nervous, or embarrassed when taking our cars in for a repair, and yet we outnumber men both as drivers and as customers at auto repair shops The time has come for us to grab the wheel and finally take control of our cars. Filled with easy-to-follow illustrations and instructions, great tips, and lifesaving rules of thumb, *The Girls Auto Clinic Glove Box Guide* will help take away the confusion and mystery surrounding cars, teach women what they need to know about how their cars work, and what they need to do to keep them running smoothly. Patrice Banks was once like most of us: a self-professed "auto airhead" who was clueless about car maintenance, yet convinced that mechanics were taking advantage of her. Now she's an auto pro devoted to empowering women to learn basic car repairs and knowing what to do in an emergency. So whether you get a flat tire when you're stranded in the middle of nowhere, your car overheats, or a mysterious dashboard light suddenly starts blinking, help is just a reach-in-the-glove-box away.

Describes how to maintain and care for automobiles to maximize their safety and longevity, including choosing the best mechanic, driving tips, and executing emergency repairs.
