The Crimean War (1853-1856) was the first modern war. A vicious struggle between imperial Russia and an alliance of the British, French and Ottoman Empires, it was the first conflict to be reported first-hand in newspapers, painted by official war artists, recorded by telegraph and photographed by camera. In her new short history, Trudi Tate discusses the ways in which this novel representation itself became part of the modern war machine. She tells forgotten stories about the war experience of individual soldiers and civilians, including journalists, nurses, doctors, war tourists and other witnesses. At the same time, the war was a retrograde one, fought with the mentality, and some of the equipment, of Napoleonic times. Tate argues that the Crimean War was both modern and old-fashioned, looking backwards and forwards, and generating optimism and despair among those who lived through it. She explores this paradox while giving full coverage to the bloody battles (Alma, Balaklava, Inkerman), the siege of Sebastopol, the much-derided strategies of the commanders, conditions in the field and the cultural impact of the anti-Russian alliance.

Chronicles battles, military campaigns, and wars throughout history, from the skirmishes of the first empires of ancient Mesopotamia to the armed conflicts in the Middle East being waged today.

The Guards Brigade consisted of three battalions, the 3rd Grenadier Guards, 1st Coldstream Guards and 1st Scottish Fusilier Guards (as the Scots Guards were then known). The book opens with a resumé of the causes of the War and an analysis of the woeful disorganization of the Army, in contrast to the efficiency of the Royal Navy. The Brigade's performance in the major battles (Alma, Inkerman etc.) is

examined. The author describes the Russians' plans, the ground and conditions experienced by the long suffering troops. The roles and abilities of the various commanders, often found wanting, is fascinatingly treated. After the war was over, the return home and parades are described.

This provocative examination of major controversies in military history enables readers to learn how scholars approach controversial topics and provides a model for students in the study and discussion of other historical events.
• Provides compelling examinations of major controversies in military history from the time of the ancient world to the modern day
• Enables readers to see how historians address such topics and understand how their process could be applied to other topics or research areas
• Offers a bibliography specific to each topic to give students looking to do further research a wealth of options

Founded by Catherine the Great, the maritime city of Sevastopol has been fought over for centuries. Crucial battles of the Crimean War were fought on the hills surrounding the city, and the memory of this stalwart defence inspired those who fruitlessly battled the Germans during World War II. Twice the city has faced complete obliteration yet twice it has risen, phoenix-like, from the ashes. In this groundbreaking volume, award-winning author Mungo Melvin explores how Sevastopol became the crucible of conflict over three major engagements – the Crimean War, the Russian Civil War and World War II – witnessing the death and destruction of countless armies yet creating the indomitable 'spirit of Sevastopol'. By weaving together first-hand interviews, detailed operational reports and battle analysis, Melvin creates a rich tapestry of history.

Praise for Small's earlier work on Nightingale: 'Hugh Small, in a masterly piece of historical detective

work, convincingly demonstrates what all previous historians and biographers have missed . . . This is a compelling psychological portrait of a very eminent (and complex) Victorian.' James Le Fanu, Daily Telegraph Florence Nightingale (1820-1910) is best known as a reformer of hospital nursing during and after the Crimean War, but many feel that her nursing reputation has been overstated. A Brief History of Florence Nightingale tells the story of the sanitary disaster in her wartime hospital and why the government covered it up against her wishes. After the war she worked to put the lessons of the tragedy to good use to reduce the very high mortality from epidemic disease in the civilian population at home. She did this by persuading Parliament in 1872 to pass laws which required landlords to improve sanitation in working-class homes, and to give local authorities rather than central government the power to enforce the laws. Life expectancy increased dramatically as a result, and it was this peacetime civilian public health reform rather than her wartime hospital nursing record that established Nightingale's reputation in her lifetime. After her death the wartime image became popular again as a means of recruiting hospital nurses and her other achievements were almost forgotten. Today, with nursing's new emphasis on 'primary' care and prevention outside hospitals, Nightingale's focus on public health achievements makes her an increasingly relevant figure.

Armed with only a telescope, a watch, and a notebook he retrieved from a dead soldier, William Howard Russell spent twenty-two months reporting from the trenches for the Times of London during the Crimean War. A novice in a new field of journalism -- war reporting -- when he first set off for Crimea in 1854, the young Irishman returned home a veteran of three bloody battles, having survived the siege of Sebastopol and watched a colleague die of cholera. Russell's fine eye for detail electrified readers, and his remarkably colorful and hugely significant accounts of battles provided those at home -- for the first

time ever -- with a realistic picture of the brutality of war. The Crimean War, originally published in 1856 under the title *The Complete History of the Russian War*, presents a selection of Russell's dispatches -- as well as those of other embedded reporters -- providing a ground-eye view of the conflict as depicted in British newspapers. Fought on the southern tip of the Crimea from 1853 to 1856, the Crimean War raged on far longer than either side expected -- largely because of mismanagement and disease: more soldiers died from cholera, typhus, typhoid, dysentery, and scurvy than battle wounds. Russell's biting criticisms of incompetent military authorities and an antiquated military system contributed to the collapse of the contemporary ruling party in Britain. In his reports, Russell wrote extensively about inept medical care for the wounded, which he termed "human barbarity." Thanks to compelling accounts by Russell and others, authorities allowed Florence Nightingale to enter the war zone and nurse troops back to health. The Crimean War contains reports from military men who acted as part-time reporters, articles by professional journalists, and letters from others at the front that newspapers back home later published. Rapidly pulled together by American publisher John G. Wells, the volume presents a fascinating contemporary analysis of the war by those on the ground. This reissue offers a new introduction by Angela Michelli Fleming and John Maxwell Hamilton that places these reports in context and highlights the critical role they played during a pivotal point in European history. The first first-hand accounts of the realities of war, these dispatches set the tone for future independent war reporting.

In this book, Michael F. Palo explains how a historical and theoretical examination of Belgian neutrality, 1839-1940, can help readers understand the behaviour of small/weak democracies in the international system.
