frontline ever since the Great Game. In view of China's growing outreach and the fact that Kashmir's occupied territory link both India's adversaries, it portends volatility in the India-Pakistan-China triangular relationship. Brig Amar Cheema's well-researched endeavour recounts the Kashmir imbroglio beyond episodic accounts but by providing the record in continuum; provides a broader perspective. The Crimson Chinar delivers a blow-by-blow account of the many "wars," and continues the narrative through the phases of "No War-No Peace," "insurgency" and "limited war" that have progressively ravaged the state. The context and geo-strategic environment has been re-created based on in-depth research and captured the rationale of the times. The important take away being;

Whenever and wherever India has responded pro-actively and with determination, results have been significantly different; 1965, 1971 and Siachen being prime examples. With myriad external and internal dimensions, Kashmir continues to cast shadows on the progression of the sub-continent. Peace remains as elusive as it was in the forties; if anything, the adversaries – both known and unknown, have grown stronger. While the reasons for the conflict may have changed with the times, the underlying causes remain as profound as they were decades ago.

portrayal as an 'issue' between India and Pakistan. By bringing together diverse points of view, this new collection reprises the complexity of this region and it shows us where hope might lie in the future. - Sanjay Kak, Award-winning Filmmaker and Writer

Kashmir is one of the longest-standing conflicts yet to be resolved by the international community. In 2000, Bill Clinton declared it the most dangerous place in the world and since then the situation continues to escalate. Positioned between India, Pakistan and China - three nuclear powers - Kashmir is the most militarized zone on the planet. Against this backdrop, the urgency to understand what Jammu and Kashmir means to those who actually belong to its territory has increased. This book not only helps readers navigate

In October 1950, Communist China invaded Tibet. After nine years of difficult co-habitation with the occupiers, the Dalai Lama, the young temporal and spiritual leader of the Tibetans, had no choice but to flee his country to take refuge in India. It took 20 years for the Tibetans to renew a dialogue with the leaders in Beijing. Soon after Deng Xiaoping's return to power in 1978, the first contacts were made. Using rare documents, this is the story of thirty years of encounters between the Tibetan Administration in Dharamsala and Beijing. Today the

Just like the border "talks" between India and China, the negotiations with Dharamsala have never really started. Reading through this book one understands how the relations between India and China are inextricably linked to the status of Tibet. Further, the present unrest in Tibet renders China unstable and increasingly belligerent towards India which gave refuge to the Tibetans.

strong professional army at the command of the Indian Union was an important factor, which weighed with many Indian princes when they chose to sign the Instrument of Accession in 1947. With its personnel drawn from all parts of the country, belonging to different religious, linguistic, and ethnic groups and living together in complete harmony, the army has been a living symbol of national integration. This book gives an admirable account of the battles fought during these wars. It is not a drum-and-bugle history trying to glorify events and cover up failures. The author has produced an objective account after painstaking research.

History has thrilling accounts of brilliant Generals leading small armies to defeat huge forces of their opponents. Better the Generalship, greater the victories. The Indian Army too has produced many great Generals, who have defeated evil designs of adversaries. Yet they have produced none like Rommel, Manstein, Model, or even like our old warriors Maharana Pratap, Hari Singh Nalwa, or Zorawar Singh. India can and must produce Generals of that calibre; Generals who don't just defend territory or restore status quo, but those who annihilate aggressors,

to teach memorable lessons to adversaries who transgress, who initiate punitive actions for conventional and nuclear deterrence to be effective. To produce Generals of such calibre, the first step is to understand what is good Generalship. Then study Generalship in previous conflicts to appreciate achievements and also learn lessons from opportunities missed. Only then can the Armed Forces institute measures to improve the quality of Generalship for the future. This book is written to facilitate such study, in that order.
