A Rebellion against Apathy. A Strategy for Action. "Life is full of good intentions, but for too many, our good intentions never become good actions--they don't move us forward, draw us closer to God, or make a difference in the world. Good intentions are cans of paint that could have become amazing works of art...but never did." --Daniel Day, in Ten Days Without Daniel Day could tell you all about his love for God and his desire to live as a follower of Jesus. But it took a simple but radical experiment to move from simply talking about it to actually living like it. For ten days at a time, Daniel chose to abandon a certain "necessity"--a coat, a voice, shoes, media, furniture, legs, touch--and to blog about it to raise funds and awareness for organizations that are doing amazing things to make a difference in the world. And then he invited others to join him in the experiments and spread the vision. Together they served God and others--and experienced significant personal change in the process. Ten Days Without is the story of their life-altering adventure. Ten Days Without is a compelling story and practical guide that will equip you and your friends to break through walls of convenience and indifference, and join a movement that is confronting apathy and ignorance around the world to make an impact on people's lives in a God-honoring way. Ten Days Without is where our good intentions end and making a difference in the world begins.

Days Without Number, now published for the first time in the United States, is classic Robert Goddard: intricately plotted, richly detailed, and suspenseful to the very last page. Nick Paleologus, a coolly efficient Englishman, is summoned home to resolve a dispute that threatens to tear his family apart. His father, Michael, is a retired archaeologist and supposed descendant of the last Emperors of Byzantium. Michael has received a hugely generous offer for the family estate in Cornwall, but refuses to sell--and refuses to divulge why. Soon the stalemate between Nick's siblings and their father is tragically broken, and only then do they discover why their father was bound to protect the house at all costs. Their desperate efforts to conceal the truth drag them into a deadly conflict with an unseen and unknown enemy. Soon, Nick realizes the only change they have of escaping their persecutor's trap is to hunt this ruthless adversary down. But the hunt involves excavating a terrible secret from their father's past. And once that secret is known, nothing will ever be the same again.

The international award-winning, bestselling phenomenon, now available in English for the first time. Tomorrow, the sun will rise for the first time in 40 days. Thirty minutes of daylight will herald the end of the polar night in Kautokino, a small village in northern Norway, home to the indigenous Sami people. But in the last hours of darkness, a precious artifact is stolen: an ancient Sami drum. The most important piece in the museum's collection, it was due to go on tour with a UN exhibition in a few short weeks. Hours later, a man is murdered. Mattis, one of the last Sami reindeer herders, is found dead in his gumpy. Are the two crimes connected? In a town fraught with tension--between the indigenous Samis fighting to keep their culture alive, the ultra-Lutheran Scandinavian colonists concerned with propagating their own religion, and the greedy geologists eager to mine the region's ore deposits--it falls to two local police officers to solve the crimes. Klemet Nango, an experienced Sami officer, and Nina Nansen, his much younger partner from the south of Norway, must find the perpetrators before it's too late... Russ Masterson had read and heard about purpose, but didn't have a clue what his own purpose was to be. And there was emptiness where there should have been value. "I had a college degree, and soon a seminary degree to accompany it, yet I didn't know where to go or what to do." As he puts it, "I kept hoping a step would arrive when it was time to lift my foot." Disillusioned with his life, as well as with God, he heard this advice: fast from food for 40 days. Faithless and frazzled, Russ accepted the challenge, hoping for direction, reflecting on the past, and wrestling with issues like purpose, faith, and love. In this book, readers will find a fresh literary voice--an insightful thinker who meets people in their humanity while helping them to see they can be rescued from it. The journey of these forty days without food will help you explore what really matters in life.
