A different conceptualisation describes the development of the self not as distinct stages, but as 'sensitive periods of development' (Sroufe, 1996, p. 158) or Bowlby's 'sensitive phases'. This describes human development in terms of patterns of behaviour, and the systems or 'conditions, both internal and external to the organism, which govern the pattern' ( Bowlby, 1979 , p. 30).

The purpose of having personal development goals is to continuously create a better life for yourself. These goals impact you in both tangible and intangible ways. While some personal development goals may relate to improving your ability to be patient with other people, others may have to do with advancing your education in some way.
