They find it easy to read, interesting and engaging. . . . This textbook's major strengths are its cognitive perspective, its readability, and the fact that it puts into practice some of the information-processing strategies that it teaches as effective ways to process information. . . ." --Elizabeth Pemberton, University of Delaware "[T]he text is written in a . . . conversational style that invites students to actively explore complex questions about teaching and learning. It is well-organized, supported with visual aids, and various learning tools, such as guidelines, reflection activities, and cases presenting opposing viewpoints. Most importantly, the text is informed and well supported by contemporary scholarship in the field of educational psychology." --Alina Reznitskaya, Montclair State University

Learning and teaching is an integrated process, and theory and practice cannot be separated. As in the previous Australasian edition, Educational Psychology 3e continues to emphasise the educational implications and applications of child development, cognitive science, learning and teaching. Recurring themes throughout the text include ideas about education; social and socio-cultural aspects of education; schools, families and community; development, learning and curriculum; and effective teaching. Author Kay Margetts incorporates Australasian perspectives and applications using the work of Australasian researchers and teachers. Numerous examples, case studies, guidelines and practical tips from experienced teachers are used in the text to explore the connections between knowledge, understanding and practice.
