Risk culture, as a sub-element of organisational culture, is a complex qualitative component of an organisation. It is a combination of the organisation's history, strategy, values and tone from the top as well as the industry sector. Even within an organisation there are bound to be several subcultures, depending on the business unit and function.

### CULTURE AND CONDUCT RISK

REPORT 2018: Executive summary ...

Training is another important form of control and rather than adopting a tick box approach, the FCA expects firms to develop training in order to embed awareness of conduct risk at all levels of the organisation. The Senior Managers and Certification Regime aims to strengthen accountability and provides firms with a great opportunity to roll out new conduct risk training programmes to all staff so that they truly understand the risks attached to their specific roles and how they should behave.
