Italy Italy has made strong progress in  
the development of energy policy,  
notably through the publication of the  
National Energy Strategy in 2013,  
which sets clear goals: reduce energy  
costs, meet environmental targets,  
strengthen security of energy supply  
and foster sustainable economic  
growth.

The Agenzia nazionale per le nuove tecnologie, l'energia e lo sviluppo economico sostenibile is an Italian Government-sponsored research and development agency. The agency undertakes research in areas which will help to develop and enhance Italian competitiveness and employment, while protecting the environment.

~~ENEA (Italy) - Wikipedia~~

La conversione dell' energia e degli impianti che consumano energia presenta un enorme potenziale di risparmio energetico. Physiological adaptations include slow metabolism and reduced energy consumption, due to limited food supply and low energy efficiency.
