This book investigates the legitimacy of the current Australian Financial Services Licensee-Authorised Representative (AFSL-AR) licensing model, as specified in the Commonwealth Corporations Act 2001. The book rectifies the deficiency in scholarly attention to this matter by developing a new conceptualised framework for the financial planning discipline. It takes into account theories in agency, legislation, legitimacy and the independent individual regulatory regimes in other professions; thereafter integrating this framework with the financial planning theory to examine the legitimacy, or what was found to be the illegitimacy of licensing advisers via multiple third party conflicted commercially oriented licensees. This book makes a very useful reference to understanding financial planning licencing model in Australia.

Tax Planning for International Mergers, Acquisitions, Joint Ventures and Restructurings Fifth Edition Edited by Peter H. Blessing and Ansgar A. Simon About the editors: Peter H. Blessing is Associate Chief Counsel, International, at the Office of Chief Counsel of the Internal Revenue Service. Before his appointment in April 2019, he was the head of cross-border corporate transactions in KPMG's Washington National Tax group. He is a member of Washington National Tax practice of KPMG LLP. His practice involves transactional, advisory and controversy matters, generally in a cross-border context. Peter obtained his LL.M. Taxation from New York University School of Law and has also earned degrees from Princeton University and Columbia Law School. Ansgar A. Simon heads the transactional tax practice of Covington & Burling LLP in New York. His broad-based transactional tax practice covers mergers and acquisitions, corporate restructuring transactions, divestitures, spin-offs, and joint ventures, as well as the financing of such transactions, generally in a cross-border context. Ansgar received his degree in law from Stanford Law School and a PhD in philosophy from the University of California, Los Angeles. About the book: Tax Planning for International Mergers, Acquisitions, Joint Ventures and Restructurings is a practical overview of key tax aspects of international transactions that have general applications, followed by twenty detailed country profiles. Transactional tax planning always is of critical importance to sound deal making. In the international arena, cross-border mergers and acquisitions continue to proliferate as companies seek to maximize global market opportunities. Whether the transaction be strategic or opportunistic, transformational or conventional expansion, third party or internal value-enhancing restructuring, it is crucial for management and counsel to develop a working knowledge of the salient features of the relevant tax law in a broad range of global jurisdictions. This book, now in its fifth edition, distills knowledge of the tax aspects involved in such transactions across international borders. What's in this book: This book considers each jurisdiction's handling of areas of concern in international tax planning such as: – entity classification; – structuring taxable transactions; – structuring tax-free transactions (both in domestic and cross-border transactions); – loss planning; – IP planning; – compensation arrangements; – acquisition financing; – joint venture planning; – value added tax issues; and – tax treaty usage. The experts in each country suggest solutions designed to maximize effective tax planning and satisfy compliance obligations. How this will help you: This user-friendly work assists in planning and evaluating strategies for transactions, both nationally and internationally, in single and multiple jurisdictions, as well as in implementing them. This book further allows an easy comparison of key tax aspects in major jurisdictions, thereby providing not only an easy understanding of the key structuring points in context but also critical issue-spotting as well as highlighting potential value-enhancing strategies. Addressing an important information gap in an area of widespread commercial concern, this resource helps international tax counsel, corporate and financial services attorneys, and corporate planning and compliance professionals to confidently approach challenging situations in both national and international regime. Editors: Peter H. Blessing and Ansgar A. Simon
