**Ford Cross Flow (Kent) - Burton Power**

This engine was introduced in the Ford Mk2 Cortina and differs from the earlier units by having the carb on the left and the exhaust on the right - hence, 'crossflow .' They also varied from Pre-X/Flows in that the combustion chamber was shifted from the head to the bowl of the piston and were know as BIP engines (Bowl In Piston).

**Ford Kent Crossflow Tuning Guide - Burton Power**

You could argue that a Kent engine is a Kent engine whether in Crossflow or Pre-Crossflow form, but if you're after period correctness then the later engine doesn't really look right. The issue is, if you want lots of performance, the Pre-Crossflow's maximum standard capacity is a mere 1498cc, or 1558cc if you use a Lotus configuration.
