A gripping and welcome addition to the growing genre of historical crime fiction' - Waterstone's Books Quarterly 'An elaborate, closely plotted tale that combines extensive research with high drama' -The Herald 1579, St. Andrews. A thirteen-year old boy meets his death on the streets of the university city of St. Andrews and suspicion falls upon one of the regents at the university, Nicholas Colp. Hew Cullan, a young lawyer recently returned home from Paris, uncovers a complex tale of passion and duplicity, of sexual desire and tension within the repressive atmosphere of the Protestant Kirk and the austerity of the academic cloister.

In the sixteenth century, a girl is found dead on the beach at St Andrews, Scotland, and a young scholar of the law must play sleuth. 1581: Young St Andrews academic Hew Cullan is unhappy with his life and disillusioned with the law. After his father's death he is invited by the advocate Richard Cunningham to complete his legal education in Edinburgh as Richard's pupil at the bar. Among his father's things, Hew finds a manuscript entitled "In Defence of the Law," directed to the Edinburgh printer Christian Hall. At first, he resists its influence, but when a young girl is found dead on the beach at St Andrews, he is left unsettled and confused. He resolves to take the book to press and agrees to Richard's offer. Embarking on his new life in the capital, he falls in love. His relationships are fraught with lies and secrets and lead to brutal murder on the borough muir. Hew suspects a link with the dead girl on the beach. As he begins his desperate search to find the killer, he finds that the truth lies closer to home, in this historical mystery by a Dagger Award finalist.

As the love triangle heats up in the third book, Bella must choose between her friendship with Jacob and her romance with Edward -- and her decision could change the fate of vampires and werewolves forever. As Seattle is ravaged by a string of mysterious killings and a malicious vampire continues her quest for revenge, Bella once again finds herself surrounded by danger. In the midst of it all, she is forced to choose between her love for Edward and her friendship with Jacob -- knowing that her decision has the potential to ignite the ageless struggle between vampire and werewolf. With her graduation quickly approaching, Bella has one more decision to make: life or death. But which is which? It's here! #1 bestselling author Stephenie Meyer makes a triumphant return to the world of Twilight with the highly anticipated companion, Midnight Sun: the iconic love story of Bella and Edward told from the vampire's point of view. "People do not want to just read Meyer's books, they want to climb inside them and live there." -- Time "A literary phenomenon." -- The New York Times

From the author of the bestselling Hue & Cry, "Fans of C. J. Sansom and Shona MacLean will find much to admire in this gripping mystery" (Historical Novel Society), St Andrews, 1583. The young king, James VI, is confined at Falkland Palace, plotting his escape. Dissension rages between Kirk and Crown, the king and his "lord enterprisers," and between the separate factions of the church. In St Andrews Castle, a bishop in decline plays out his darkest fantasies while lawyer Hew Cullan and his friend, Giles, investigate the true source of his sickness, uncovering corruption at its heart. The death of a young soldier implicates Hew's sister and Giles's wife, Meg, and leads Hew to an astonishing discovery and towards his blackest hour, his fortunes inextricable from those of James himself. Real historical figures woven into this fantastical tale are James VI, the bastard son of James V, spymaster Sir Francis Walsingham, and Alison Pearson who was executed for witchcraft in 1588. Praise for the Hew Cullan Mysteries "Charms the reader." --Scotland on Sunday "The authentic Scottish dialogue and gripping narrative make this a must for fans of Scottish history or mystery." --Scottish Field "Wonderful stuff." --Good Book Guide "Informative, suspense filled, downright entertaining." --The Bookbag

Models of legislative organization--distributive, informational, and partisan--assume forces outside Congress exert little pressure on members to innovate. This logic fundamentally misconstrues the reforming impulse. The theory I offer, therefore, gives center stage to the relationship between Congress and executive. Transaction costs, I contend, make reform rare. Internal efforts, stymied, require a push from outside. Major historical events such as war, economic depression, and "constitutional moments" strain existing institutions to their breaking point. The resulting transformation may take a variety of forms. Capacity-building changes are likely when the state embraces new issues. If time to act is short and interbranch relations friendly, reform aids cooperation between Congress and president. Conversely, conflict spawns innovation bracing legislative independence. After developing my theory, I take it to history (1789-1921). Substantive chapters explore three historical periods--antebellum, Civil War/Reconstruction, and the Gilded Age through World War I. During the "long" 19th Century, reform attends major events over 70 percent of the time. Innovation is often multifaceted. Consider the Civil War. It brought debate limitations, new policy committees (including Appropriations), and a number of panels intended to superintend executive-led mobilization efforts. Many important changes in congressional organization come after exogenous shocks, and are shaped by the system of separated power.

Stories starring a sleuthing Scottish lawyer: "McKay's command of plot, place and character makes these 16th century St Andrews-set mysteries a delight." --The Scotsman A grisly murder. A vanishing corpse. A secret romance. A ghostly tale. An innocent accused. Set in the year of the Armada, 1588: A Calendar of Crime brings together five short stories featuring Hew Cullan. From the gruesome murder of a candlemaker to Spanish ghosts on Halloween, Shirley McKay delivers five gripping tales of mystery that will keep you reading long into the night. "A fascinating evocation of the everyday life of ordinary Scots in the 1500s as well as series of first-rate stories. Her use of language is a delight, the sinewy and expressive Scots words aiding the creation of Cullen's very realistic world. McKay is to be congratulated for the continued quality and inventiveness of her tales." --The National
