Genetics Packet ~ Punnett

Square Practice KEY Basics

1. The following pairs of letters represent alleles of different genotypes.

Indicate which pairs are Heterozygous and which are Homozygous. Also indicate

Where To Download Genetics Punnett Squares Practice Packet Answers

whether the homozygous pairs
are Dominant or Recessive
(*note heterozygous pairs
don't need either dominant
nor recessive labels.)

The Punnett square is a diagram that is used to predict an outcome of a particular cross or breeding experiment. It is named

Where To Download Genetics Punnett Squares

Practice Packet Answers
after Reginald C. Punnett,
who devised the approach to
determine the probability of
an offspring's having a
particular genotype
(combination of alleles).
