20+ Jump Starters & Chargers ideas | solar battery ...

Golf carts are generally equipped with 4 - 6 deep discharge batteries (with thick battery plates). Unlike starter batteries which provide a short, sharp burst of energy to start the engine of your vehicle, deep discharge batteries are specifically designed to provide stable, continuous power over extended periods of time. Golf buggy batteries, which are generally 6V, 8V or 12V, are capable of providing permanent, reliable power to your golf cart.
