official Question Bank released in April 2021 • Answer key with Explanations •  
Concept videos for blended learning (science & maths only)

Blended learning has gained significant attention recently by educational leaders, practitioners, and researchers. i<sup>2</sup>Flex, a variation of blended learning, is based on the premise that certain non-interactive teaching activities, such as lecturing, can take place by students without teachers' direct involvement. Classroom time can then be used for educational activities that fully exploit teacher-student and student-student interactions, allowing for meaningful personalized feedback and scaffolding on demand. Revolutionizing K-12 Blended Learning through the i<sup>2</sup>Flex Classroom Model presents a well-rounded discussion on the i<sup>2</sup>Flex model, highlighting methods for K-12 course design, delivery, and evaluation in addition to teacher performance assessment in a blended i<sup>2</sup>Flex environment. Emphasizing new methods for improving the classroom and learning experience in addition to preparing students for higher education and careers, this publication is an essential reference source for pre-service and in-service teachers, researchers, administrators, and educational technology developers.

Exam board: SQA Level: Higher Subject: Human Biology First teaching: September 2018 First exam: Summer 2019 Practice makes permanent. Feel confident and prepared for the SQA Higher Human Biology exam with this two-in-one book, containing practice questions for every question type and topic, plus two full practice papers - all written by experienced examiners. - Choose to revise by question type or topic: A simple grid enables you to pick particular question styles or course areas that you want to focus on, with answers provided at the back of the book - Understand what the examiner is looking for: Clear guidance on how to answer each question type is followed by plenty of questions so you can put the advice into practice, building essential exam skills - Remember more in your exam: Repeated and extended practice will give you a secure knowledge of the key areas of the course (human cells; physiology and health; neurobiology and immunology) - Familiarise yourself with the exam papers: Both practice papers mirror the language and layout of the real SQA papers; complete them in timed, exam-style conditions to increase your confidence before the exams - Find out how to achieve a better grade: Answers to the practice papers have commentaries for each question, with tips on writing successful answers and avoiding common mistakes Fully up to date with SQA's requirements The questions, mark schemes and guidance in this practice book match the requirements of the revised SQA Higher Human Biology specification for examination from 2019 onwards.
