Guide To Citroen Exhaust

YOUR CITROËN EXHAUST SYSTEM The exhaust system is
essential for your comfort, the performance of your engine
and the protection of the environment. Exhausts must meet
strict standards and manufacturer specifications. The purpose
of your exhaust system is to remove gases from the engine
that are created when burning fuel.

Best tuning tips for the Citroen DS3 and best performance ...

Do not go with the largest exhaust you can get this will reduce the exhaust flow rate - the best for power gains are usually between 1.5 to 2.5 inches. It is the shape and material more than the bore size. Getting the cylinder head gas flowed will further help more air into each cylinder. This is definitely a job for a professional with a flow bench.

Guide to Tuning the Citroen DS5 and best modifications.

Sports exhausts generally help improve air flow out of the engine but avoid an exhaust that is too large or you could will reduce the flow rate. Stick to 1.5 to 2.5 inches as a rule of thumb. Getting the head polished and ported will allow you to get more air into each cylinder. This is definitely a job for a professional with a flow bench.
