Heart Freedom 15 Inverter Trouble Shooting

Heart Freedom Model 15 Inverter/charger. I have a Heart Interface Model 15 Inverter/charger in my 2002 Winnebago Ultimate and can't figure our from literature if the charger only charges coach batteries or if it also charges chassis batteries on shore power. Recently, I installed a new set of chassis batteries and shortly thereafter started having problems maintaining the charge on the chassis batteries.

Heart Freedom Model 15 Inverter/charger - iRV2 Forums

For 32 Volt models, recharge batteries to 41.38 Volts. Freedom units will automatically reset when shore power is disconnected or reset manually by cycling the power switch OFF/ON Shut down also occurs for a high battery condition at 15.5 Volts. To restore inverter operation, battery voltage must be below 15.5 Volts.

OWNER'S MANUAL - Power Inverter, Inverter Charger ...

I have a Heart Interface Freedom Model 20D Inverter. The on/off switch on the Inverter is off. I have a remote control mounted in the closet of the bedroom. The Inverter runs with the remote switch in the off position. (I hear the fan running) I assume it is attempting to charge the batteries.
