This study aims at investigating and analyzing three aspects of hedging in spoken political discourse: (1) means of expression, (2) density of lexical and syntactic markers, and (3) pragmatic functions. The corpus providing the database for the study consists of seventeen randomly selected televised

HEDGING is a
common linguistic

Get Free Hedging In

phenomenon present in both written and spoken speech. It is a communicative strategy that results in the weakening of the illocutionary force of the statement that otherwise makes it sound rude, impolite or straightforward. The term hedge was introduced by G. Lakoff (1972). He characterizes
