Questions

Hodders Digestion End  
Of Chapter Questions

Digestion is the  
mechanical and  
chemical break down of  
food into small organic  
fragments. Mechanical  
digestion refers to the  
physical breakdown of  
large pieces of food into

# Download Free Hodders

smaller pieces which can subsequently be accessed by digestive enzymes. In chemical digestion, enzymes break down food into the small molecules the body can use.

The rectum is the terminal end of the large intestine, as shown in Figure 15.13. The primary role of the rectum is to store the feces until defecation. The feces are propelled using peristaltic movements during elimination. The anus is an opening at the far-

# Download Free Hodders

end of the digestive tract and is the exit point for the waste material. Two sphincters between the rectum and anus control elimination: the inner sphincter is involuntary and the outer sphincter is voluntary.
