House of Debt is important because it persuasively demonstrates that the conventional meta-narrative of the crisis and its aftermath, which emphasizes the breakdown of financial intermediation, is inadequate.... All future work on financial crises will have to reckon with the household balance sheet effects they stress.

House of Debt: How They (and You) Caused the Great ...

Armed with clear and powerful evidence, Atif Mian and Amir Sufi reveal in *House of Debt* how the Great Recession and Great Depression, as well as the current economic malaise in Europe, were caused by a large run-up in household debt followed by a significantly large drop in household spending. Though the banking crisis captured the public's attention, Mian and Sufi argue strongly with actual data that current policy is too heavily biased toward protecting banks and creditors.
