The problem is that the HP 10BII has no way to specify an infinite number of periods using the N key. Calculating the present value of a perpetuity using a formula is easy enough: Just divide the payment per period by the interest rate per period. In our example, the payment is \$1,000 per year and the interest rate is 9% annually.

Top Commercial Real Estate Secrets Revealed! Over the years I have looked for books on commercial real estate investing. I have discovered there are very few published. There are even fewer with substantial practical and technical content. This is a big business with lots of players but still very little information seems to be printed. The intent of this book is to fill a gap and to give you the basics of Commercial Real Estate Investments from an insider's point of view. This book is written to be useful, informative, and easy to understand. It takes an honest and straightforward approach. I am writing it in the hopes that it will arm you with basic information and dispel some common myths about
