This competency-based, introductory horticulture book is now in its sixth edition. Written in an easy-to-read, engaging style, it enables users to measure their progress. This book includes numerous illustrations to help reinforce written material. It provides a thorough introduction to the world of horticulture. This latest edition includes new chapters on water gardens, dish gardens, and prairie gardens for the more adventuresome gardener.

Designed to provide readers with a full appreciation of the wonderful world of horticultural science, the Second Edition of INTRODUCTION TO HORTICULTURAL SCIENCE covers everything the reader needs to know in a comprehensive format that is easy to understand. Coverage includes critical topics such as fundamental concepts, cutting edge research, careers in horticulture, the relationship between horticulture and the environment, classification of plants, and plant anatomy. Readers are also introduced to key concepts such as plant propagation, media, nutrients and fertilizers, plants and the environment, plant growth regulators, post harvest physiology and pest management, greenhouse structures, nursery site selection, development and facilities, producing nursery crops, and floral

design. Through enhanced visual aids and the inclusion of recent trends in the field, the second edition has been designed to peak reader interest and improve reader understanding. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

INTRODUCTORY HORTICULTURE, EIGHTH EDITION, is a revision of one of the most widely used texts for secondary agriscience programs. With comprehensive content that includes extensive use of full color illustrations, this text addresses a wide scope of horticultural areas. Self-evaluations allow students to learn and retain the fundamentals. Inclusion of information on the latest technology and trends keep students on the cutting edge. Students will benefit from the tips and information on how to find and interview for a job in the industry, as well as how to successfully operate a horticulture business. Introductory Horticulture, while typically taught in the first and second year of a secondary agriscience program, is also a great resource to be utilized throughout the entire agriscience curriculum. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Essential reading for all studying horticulture and keen gardeners. This clear introduction to the principles underlying the practical applications of horticulture opens up the excitement of growing plants and garden development without readers wading through complex information. Written by a team of highly motivated and experienced horticultural tutors, the text supports the newly restructured RHS Level 2 qualifications with related Level 3 topics in boxes and signposting to Level 4 topics, together with other horticultural qualifications at these levels. Full colour images tied closely to the text and practical case study boxes inspire readers by making topics relevant to their own horticultural experiences. A comprehensive glossary helps build confidence in the use of classical horticulture language as well as new developing terms, and end-of-chapter questions encourage readers to apply what they have learnt. Extensive online supporting material includes mind maps showing the relationship of topics and aiding students in revision.

ORNAMENTAL HORTICULTURE: SCIENCE, OPERATIONS, AND MANAGEMENT, 4E is a comprehensive introduction to the art and science of ornamental horticulture. This book provides a balanced coverage of the different elements integral to this field, including the science of ornamental horticulture, crop production, craftsmanship, and business management skills. ORNAMENTAL HORTICULTURE offers students a practical view

of the business skills required to be successful in this growing industry, while also giving them the chance to develop their own creativity. Extensive full color illustrations, detailed list of objectives, and comprehensive review questions will help students monitor their progress. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Landscape Construction, 3rd edition, will help your students understand the process of construction and implementation of a multitude of exterior hardscape construction projects. This book begins with the preparation for construction and follows through to the installation of the final elements of the landscape project. Your students will appreciate the detailed discussions about site preparation, grading and drainage, utilities and irrigation, retaining wall construction, paving, exterior carpentry and fencing and free-standing walls. Such amenities as pools, ponds, and edging are also discussed in detail. All instructions are well supported by photos and illustrations. Each section contains thorough installation information for most of the contemporary materials used in today's landscapes. David Sauter has provided your students with expert perspective on materials and techniques, as well as easy-to-follow instructions. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

A major update of a best-selling textbook that introduces students to the key experimental and analytical techniques underpinning life science research.

An all-new option for introductory horticulture or plant science courses, Horticulture Today engages students with practical information they can use and hands-on activities they perform. Written by two dynamic agriculture educators, the text presents a contemporary overview of the horticulture industry, then provides thorough coverage of plant science, horticultural practices, landscape design and maintenance, and integrated pest management. In developing an appreciation for the diversity and global context of horticulture, Horticulture Today helps students to develop literacy in Green Industry careers as well as the skills they will need to succeed.
