Posidippus on Papyrus 2.

This volume deals with the submerged literature of ancient Greece; that is, all the texts produced for socially relevant events that have contributed to the configuration and articulation of ancient Greek culture as we know it. In particular, the hermeneutic tool of submerged literature may shed new light on the dynamics behind the 'emersion' or 'submersion' of certain texts during different periods. The category of submerged literature is extended here to include preserved and lost texts as well as those texts that can be

reconstructed through investigation. The volume investigates the manifold speech acts that we know of through various sources and that, either from the outset or over the course of time, have been placed at the edge of diffusion, conservation and transmission. The essays contained in the volume deal with questions of hermeneutics, philology and methodology, as well as with epic cycles, lyric poetry, tragedy, comedy, satyr drama, and mime. By approaching these genres from the perspective of submerged literature, the book tries to provide a more precise contextualization of the texts within the communication system of ancient Greece. The book thus presents a new line of research and a series of studies that take a fresh look at the texts and all archaeological and

iconographic sources relating to Greek culture, taking into account the results of ethnographic and anthropological research. This extensive investigation examines unique ancient Greek orality and literacy dynamics using a new hermeneutic frame that will hopefully reshape our understanding of ancient Greek culture.

In *The Militant Middle Ages* Tommaso di Carpegna Falconieri delves into common perceptions of the Middle Ages and how these views shape current political contexts, offering a

new lens for scrutinizing contemporary society through its instrumentalization of the medieval past.

Available for the first time in English, this is the definitive account of the practice of sexual slavery the Japanese military perpetrated during World War II by the researcher principally responsible for exposing the Japanese government's responsibility for these atrocities. The large scale imprisonment and rape of thousands of women, who were euphemistically called "comfort women" by the Japanese military, first seized public attention in 1991

when three Korean women filed suit in a Toyko District Court stating that they had been forced into sexual servitude and demanding compensation. Since then the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan, much if it inspired by Yoshimi's investigations. How large a role did the military, and by extension the government, play in setting up and administering these camps? What type of compensation, if any, are the victimized women due? These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history and are central to efforts to transform Japanese ways of remembering the war. Yoshimi Yoshiaki provides a

wealth of documentation and testimony to prove the existence of some 2,000 centers where as many as 200,000 Korean, Filipina, Taiwanese, Indonesian, Burmese, Dutch, Australian, and some Japanese women were restrained for months and forced to engage in sexual activity with Japanese military personnel. Many of the women were teenagers, some as young as fourteen. To date, the Japanese government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women. This English edition updates the Japanese edition originally published in 1995 and includes introductions by both the author and the translator placing the story in context for American readers.
