Second, lab reports are easily adapted to become papers for peer-reviewed publication. For students serious about pursuing a career in science, a lab report is a stepping-stone for submitting work for review. Even if results aren't published, the report is a record of how an experiment was conducted, which can be valuable for follow-up research.

The CIELAB color space (also known as CIE L*a*b* or sometimes informally abbreviated as "Lab") is a color space defined by the International Commission on Illumination (abbreviated CIE) in 1976. It expresses color as three values: L* for perceptual lightness, and a* and b* for the four unique colors of human vision: red, green, blue, and yellow. CIELAB was intended as a perceptually uniform ...

CIELAB color space - Wikipedia
A lab report abstract is a section of the lab report, just after the title, which gives a precise summary of the purpose, method or experimental procedure, results, discussion, and conclusion. It does not get into much detail but rather a sentence or two of each mentioned aspects of the report.
