Linked The New Science Of

Linked: The New Science of Networks is a popular science book written by the Hungarian physicist Albert-L\u00e1szl\u00f3 Barab\u00e1si and first published by the Perseus Books Group in 2002. Barab\u00e1si has changed the way of thinking about real-world networks and largely contributed to making networks the revolutionary science of the 21st century. Linked is his first book that introduces the highly developed field of Network Science to a broad audience. Linked has become a bestseller with more than ...

Linked: The New Science of Networks - Wikipedia

The first book to explore the hot new science of networks and their impact on nature, business, medicine, and everyday life. }In the 1980's, James Gleick's Chaos introduced the world to complexity. Now, Albert-Lszl Barabsi's Linked reveals the next major scientific leap: the study of networks.
