Behind the iconic jazz orchestras, vocalists, and stage productions of the Swing Era lay the talents of popular music's unsung heroes: the arrangers. John Wriggle takes you behind the scenes of New York City's vibrant entertainment industry of the 1930s and 1940s to uncover the lives and work of jazz arrangers, both black and white, who left an indelible mark on American music and culture. *Blue Rhythm Fantasy* traces the extraordinary career of arranger Chappie Willet--a collaborator of Louis Armstrong, Cab Calloway, Duke Ellington, Gene Krupa, and many others--to revisit legendary Swing Era venues and performers from Harlem to Times Square. Wriggle's insightful music analyses of big band arranging techniques explore representations of cultural modernism, discourses on art and commercialism, conceptions of race and cultural identity, music industry marketing strategies, and stage entertainment variety genres. Drawing on archives, obscure recordings, untapped sources in the African American press, and interviews with participants, *Blue Rhythm Fantasy* is a long-overdue study of the arranger during this dynamic era of American music history.

The "Second Quintet" -- the Miles Davis Quintet of the mid-1960s -- was one of the most innovative and influential groups in the history of the genre. Each of the musicians who performed with Davis--saxophonist Wayne Shorter, pianist Herbie Hancock, bassist Ron Carter, and drummer Tony Williams--went on to a successful career as a top player. The studio recordings released by this group made profound contributions to improvisational strategies, jazz composition, and mediation between mainstream and avant-garde jazz, yet most critical attention has focused instead on live performances or the socio-cultural context of the work. Keith Waters' *The Studio Recordings of the Miles Davis Quintet, 1965-68* concentrates instead on the music itself, as written, performed, and recorded. Treating six different studio recordings in depth--ESP, Miles Smiles, Sorcerer, Nefertiti, Miles in the Sky, and Filles de Kilimanjaro--Waters has tracked down a host of references to and explications of Davis' work. His analysis takes into account contemporary reviews of the recordings, interviews with the five musicians, and relevant larger-scale cultural studies of the era, as well as two previously unexplored sources: the studio outtakes and Wayne Shorter's Library of Congress composition deposits. Only recently made available, the outtakes throw the master takes into relief, revealing how the musicians and producer organized and edited

the material to craft a unified artistic statement for each of these albums. The author's research into the Shorter archives proves to be of even broader significance and interest, as Waters is able now to demonstrate the composer's original conception of a given piece. Waters also points out errors in the notated versions of the canonical songs as they often appear in the main sources available to musicians and scholars. An indispensable resource, *The Miles Davis Quintet Studio Recordings: 1965-1968* is suited for the jazz scholar as well as for jazz musicians and aficionados of all levels.

This book explores the work of a wide range of American photographers attracted to jazz during the period 1900–60. It includes discussions of jazz as a visual subject, its attraction to different types of photographers and offers analysis of why and how they approached the subject in the way they did. While some of these photographers are widely recognized for their work, many African American photojournalists, studio photographers, early twentieth-century émigrés, the Jewish exiles of the 1930s and vernacular snapshots are frequently overlooked. Drawing on ideas from contemporary photographic theory backed up by extensive archival research, this book allows the reader to explore and understand twentieth-century jazz photography in both an engaging and comprehensive fashion.

Making Music for Modern Dance traces the collaborative approaches, working procedures, and aesthetic views of the artists who forged a new and distinctly American art form during the first half of the 20th century. The book offers riveting first-hand accounts from innovative artists in the throes of their creative careers and provides a cross-section of the challenges faced by modern choreographers and composers in America. These articles are complemented by excerpts from astute observers of the music and dance scene as well as by retrospective evaluations of past collaborative practices. Beginning with the careers of pioneers Isadora Duncan, Ruth St. Denis, and Ted Shawn, and continuing through the avant-garde work of John Cage for Merce Cunningham, the book offers insights into the development of modern dance in relation to its music. Editor Katherine Teck's introductions and afterword offer historical context and tie the artists' essays in with collaborative practices in our own time. The substantive notes suggest further materials of interest to students, practicing dance artists and musicians, dance and music history scholars, and to all who appreciate dance.

Accompanying 50-minute CD contains examples of music discussed in the book.

This book includes previously unpublished essays, letters, and memoirs written by one of the giants of American music. Armstrong recounts his early life in New Orleans, his experiences in Chicago and New York during the 1920s, his infamous crowning as "King of the Zulus," and his late years in Queens, New York. Here is a little-known dimension of Louis Armstrong that will stand as a treasure for the history of jazz and, indeed, the history of American culture.
