Managerial accounting helps managers and other decision-makers understand how much their products cost, how their companies make money, and how to plan for profits and growth. To use this information, company decision-makers must understand managerial-accounting terms. When planning for the future, they follow a master budgeting process.

Simply stated: managerial accounting is about providing information in support of the internal management processes. Many organizations refer to their internal accounting units as departments of strategic finance. This title is more reflective of their wide range and scope of duties. Managerial accounting is quite different from financial accounting.
