With an easy-to-understand writing style, ESSENTIALS OF ECONOMICS is the most popular and widely used economics textbook in college Economics classes. Author Greg Mankiw has created a textbook that's accessible to everyone, particularly students encountering economics for the first time -- emphasizing real-life scenarios and engaging facts on the economy and its fundamental principles.

David R. Hakes (University of Northern Iowa) has prepared a study guide that will enhance your success. Each chapter of the study guide includes learning objectives, a description of the chapter's context and purpose, a chapter review, key terms and definitions, advanced critical-thinking questions, and helpful hints for understanding difficult concepts. You can develop your understanding of the material by doing the practice problems and answering the short-answer questions. Then you can assess your mastery of the key concepts with the self-test, which includes true/false and multiple-choice questions.

Now firmly established as one of the leading economics principles texts in the UK and Europe, this exciting new fourth edition of Economics by N. Gregory Mankiw (Harvard University) and Mark P. Taylor (Washington University), has been fully updated. New topics have been added in including theories on, for example, Marxist and Feminist theories on labour giving wider context to economic issues. A new chapter on Issues in Financial markets has been added covering the financial crisis and its causes and the final chapter has been updated to reflect the post-crisis world and how theories of the crisis have emerged.

The new European edition of Mankiw's bestselling and highly readable text communicates the theories and models of macroeconomics in a concise and accessible way, with real-world examples, discussions and case studies. The text is fully updated with extensive coverage of the global financial crisis and in particular its impact on European economies.
