Sometimes people use the words " math skills " and " math concepts " interchangeably. They are not the same, but they do go hand and hand. Understanding how new math skills and concepts work together will give you a new perspective on math education and math challenges. Definition of Skills Skills are actions. People do them.

~~How Math Concepts and Math Skills Work Together and Why~~...

Having mathematical skill is something different. To be skilled means to be able to perform what you have the concept of. This means that a person can only be called skilled if he or she not only knows the concept but can also apply it in the proper manner.
