The New Politics of the NHS has become established over a quarter century and five editions as the key overview of the NHS and its processes and paths of influence. This latest edition remains a clear, easy-to-read guide to often complex debates. It encompasses both the background of the evolution of the NHS since its foundation, and a completely up-to-date picture of its present and future in a more pluralistic - and possibly more financially austere - era in which deference to medical expertise is eroding and information on health and care is far more widely available. Assuming no prior knowledge of NHS politics and systems, The New Politics of the NHS focuses on management, structure, centralisation, funding, economic performance, challenges, current party political debates, interest groups and rationing, and also on the NHS's institutional and cultural continuity as a tax-funded service providing comprehensive, universal healthcare free at the point of delivery. It is a vital update for all healthcare professionals, NHS managers, policy makers and shapers, and those in special interest groups including patient advocacy organisations

This new edition makes sense of the confusing and often conflicting NHS debates. It provides vital background and tells the story of the evolution of the NHS over the past 60 years, and the way successive-governments tried to deal with the problems they faced. It explores how lessons from the past can inform current debate and demonstrates how channels of power and influence function today. Assuming no prior knowledge of NHS politics and systems, The New Politics of the NHS is completely up-to-date, impartial and well informed. It focuses on key issues such as party political debates, interest groups, management, structure, centralisation, funding, economic performance and rationing. It is an important update for all healthcare professionals, NHS managers, policy makers and shapers, and those in special interest groups including patient advocacy organisations.

Suitable for students of Social policy, Health policy, Public policy and Nursing as well as health care professionals.This exciting new book covers the political history of the NHS from 1948 to the present day. It traces the way in which successive governments have tried to deal with problems of a centralised health care system, specifically the tensions between central control and local responsiveness and between managerial influence and medical autonomy. In doing so it examines the role of different actors in the health care policy arena: political parties, professions, consumers and interest groups.

The welfare states of the affluent democracies now stand at the centre of political discussion and social conflict. In this text, an international team of leading analysts reject simplistic claims about the impact of economic globalization.

Advances in medical science and technology are saving the lives of more children worldwide than ever.
