~~Organic Chemistry Student Lab Notebook - Hayden McNeil~~

Laboratory records are to be kept in a bound notebook (i. e., secured with glue), not a spiral notebook or a loose-leaf binder. The pages are to be consecutively numbered. No pages are ever to be removed (except for the copies produced by duplicating notebooks). All entries are to be made directly in the notebook in black or blue ink.

~~The Laboratory Notebook | Chem Lab~~

Chemistry Laboratory Notebook The Chemistry Laboratory Notebook is a carbonless notebook designed for use in any chemistry laboratory course, and it contains several features that facilitate its use in a laboratory setting. It includes information on lab safety and proper lab notebook techniques.

~~Chemistry Laboratory Notebook 100 Carbonless Sets - Norton~~

A teaching lab may require tear-out duplicate pages for making carbon copies. An engineering or industrial research/development lab will likely require a specific type notebook with prenumbered pages and places for date and investigator's and supervisor's signatures on each page.

~~Guidelines for keeping a laboratory notebook~~

ORGANIC CHEMISTRY The laboratory notebook is an important tool in preparing for an experiment, recording data and observations during an experiment, and assessing results after an experiment has been completed. The format described in this handout is only one of several possible formats. Note that a significant portion of the notebook must be prepared in advance of each experiment.
