volume combines original research, new book reviews, warship notes, an image gallery, and much more, maintaining the impressive standards of scholarship and research with which Warship has become synonymous. In the 2019 edition of this celebrated title, articles include Hans Lengerer's exploration of the genesis of the Six-Six Fleet, Michele Cosentino's look at Project 1030, Italy's attempt to create a torpedo-armed attack and ballistic missile submarines, and A D Baker III's drawing feature on the USS Lebanon. Detailed and accurate information is the keynote of all the articles, which are fully supported by plans, data tables and stunning photographs.

Fast on the heels of the New York Times bestseller *The Book of General Ignorance* comes *The Book of Animal Ignorance*, a fun, fact-filled bestiary that is sure to delight animal lovers everywhere. Arranged alphabetically from aardvark to worm, here are one hundred of the most interesting members of the animal kingdom explained, dissected, and illustrated, with the trademark wit and wisdom of John Lloyd and John Mitchinson. Did you know, for instance, that

- when a young albatross takes wing, it may stay aloft for ten years
- vampire bat saliva—unsurprisingly, when you think about it—is the source of the world's most powerful blood thinning drug, appropriately called draculin
- bombardier beetles fire a boiling chemical spray out of their rears at 300 pulses per second
- a bald eagle's feathers weigh twice as much as its bones
- a giant tortoise recently died at the documented age of 255
- octopuses are dexterous enough to unscrew tops from jars
- spider silk is so light that a strand long enough to circle the world would weigh as

much as a bar of soap? So meet the water bears that can live in suspension for hundreds of years, the parasite carried by your cat that makes men grumpy and women promiscuous, and the woodlouse that drinks through its bottom. Marvel at elephants that walk on tiptoe, pigs that shine in the dark, and woodpeckers that have ears on the ends of their tongues. If you still think a pangolin is a musical instrument, that hyenas are dogs, or that sheep are pointless and stupid, *The Book of Animal Ignorance* has arrived just in time.

This study analyses the various types and stages of conflict that have been experienced by diverse groups and generations of Karen over the six decades of armed conflict between the Karen National Union (KNU) and successive Burmese governments. Instead of focusing on those who are internally displaced, those in the refugee camps on the Thai-Burma border or living abroad, or those in the KNU, it places particular emphasis on the "other" Karen, or the majority segment of the Karen population living inside Burma, a population that has hitherto received little scholarly and journalistic attention. It also assesses the Karen people's varied attitudes toward a number of political organizations that claim to represent their interests, toward successive Burmese military regimes, and toward the political issues that led to the original divide between "accommodators" and "rebels." This study argues that the lifestyles and strategies that the Karens have pursued are diverse and not confined to armed resistance. Acknowledging these multiple voices will not only shed light upon the many positive features of ethnic interactions,

including harmonious communal relationships and significant attempts to promote peace and stability by encouraging "normal" activities and routines in both peaceful and war-torn areas; it will also help to identify policy recommendations for future ceasefire negotiations and a possible long-term political settlement within the context of a militarized Burma.

With a culinary heritage shaped by the sun, the sea and the Mediterranean landscape, Greek cuisine is bursting with rich flavours and fresh ingredients. It makes full use of ripe summer fruits, herbs and vegetables, particularly tomatoes and olives, to produce the foundations of dishes that are both healthy and packed with taste. To these signature staples, ingredients are added from the surrounding area ? succulent lamb; freshly-caught fish, such as swordfish, hake, tuna and squid; yogurt; feta cheese; and bread baked slowly in smoky local ovens. This book is all about translating and recreating the evocative tastes, textures and traditions of Greek food easily in your own kitchen. The introductory section of the book opens with a history of Greek cuisine and its regional influences, and then gives full details on how to choose the best ingredients and how to prepare these foods in the traditional method. The recipe section offers 160 authentic dishes, both classic and modern ? mezes, soups, main courses, vegetable dishes and desserts. Every recipe is tested for the modern kitchen and uses ingredients that can now be found in the local supermarket. All recipes are illustrated step by step, demonstrated visually so they are easy to follow and copy with confidence, and there is a glorious photograph of every finished

dish, to show the reader exactly what to aim for. Mezes include such delights as Grilled Vegetable Terrine, Stuffed Vine Leaves, and Taramasalata. For the main course, there are wonderful dishes such as Spring Lamb Casserole with Fresh Peas, and Grilled Swordfish Skewers. For those with a sweet-tooth, mouthwatering specialities such as Walnut Cake or Sifnos Cheese and Honey Tart can be served for dessert. This glorious book, with 700 photographs, shows you how to recreate the flavours, aromas and colours of sunny Greece in your own cooking and entertaining.

Humorous essays from the #1 New York Times – bestselling author on travel, late-life parenting, and other perils. P. J. O ' Rourke, hailed as “ one of America ' s most hilarious writers ” by Time, is the author of the classic travelogue Holidays in Hell, in which he traversed the globe on a fun-finding mission to what were then some of the most desperate places on the planet, including Warsaw, Managua, and Belfast. In Holidays in Heck, O ' Rourke embarks on supposedly more comfortable and allegedly less dangerous travels—often with family in tow—which mostly leave him wishing he were under artillery fire again. The essays take O ' Rourke on a whirlwind of adventures, from the National Mall in Washington to a family ski vacation (to the

Aspen of the Midwest—Ohio—where the highest point of elevation is the six-foot ski instructor that his wife thinks is cute). He also experiences a harrowing horseback ride across the mountains of Kyrgyzstan. The result is a hilarious and often moving portrait of life in the fast lane—only this time as a husband and father. “ In this cheeky follow-up to *Holidays in Hell*, former war correspondent O ’ Rourke trades battle zones for more appealing travel destinations, often with his family in tow . . . O ’ Rourke loses none of his sly humor, finding many opportunities to lampoon American politics under his new guise as a traveling family man. ” —Publishers Weekly “ [O ’ Rourke] provides colorful, earthy descriptive passages regarding stag hunts in Britain, extreme horseback riding in the wilds of Kyrgyzstan, a poignant look at his bout with cancer and a brief jaunt to Kabul, Afghanistan. ” —Kirkus Reviews

The fourth SWINDLE book, centering around a dog show that goes horribly awry! The heroes of SWINDLE, ZOOBREAK, and FRAMED are back - and this time, things have gone to the dogs! When Luthor goes berserk at a mall dog show, he's accused of ruining the career of the three-time best-in-show beagle. Griffin always knew that Luthor's viciousness was simmering just below the surface - so why does he feel bad enough to spring him from the pound? Griffin and his team have a new plan. This one involves New York City, a sinister saboteur, a reclusive dog-trainer who's quit the business, an international dog show, and a whole lot of red dye. But if they pull it off, no one will even notice their sting operation...right?

In 1949, Romania's fledgling communist regime unleashed a radical and brutal campaign to collectivize agriculture in this largely agrarian country, following the Soviet model. *Peasants under Siege* provides the first comprehensive look at the far-reaching social engineering process that ensued. Gail Kligman and Katherine Verdery examine how collectivization assaulted the very foundations of rural life, transforming village communities that were organized around kinship and status hierarchies into segments of large bureaucratic organizations, forged by the language of "class warfare" yet saturated with vindictive personal struggles. Collectivization not only overturned property relations, the authors argue, but was crucial in creating the Party-state that emerged, its mechanisms of rule, and the "new persons" that were its subjects. The book explores how ill-prepared cadres, themselves unconvinced of collectivization's promises, implemented technologies and pedagogies imported from the Soviet Union through actions that contributed to the excessive use of force, which Party leaders were often unable to control. In addition, the authors show how local responses to the Party's initiatives compelled the regime to modify its plans and negotiate outcomes. Drawing on archival documents, oral histories, and ethnographic data, *Peasants under Siege* sheds new light on collectivization in the Soviet era and on the complex tensions underlying and constraining political authority.
