Death

It is impossible
to establish
with any

Online Library Plague

certainty the exact number of inhabitants in England at the eve of the Black Death, and estimates range from 3 to 7 million. The number is probably in the higher end, and an estimate of around 6 million

Online Library Plague

inhabitants And
seems likely.

Black Death in
England -
Wikipedia

The period from
1348 (the Black
Death) to 1665
(the Great
Plague) could be
termed the
plague
centuries,

Online Library

Plague

Although other diseases were also responsible for mortality.

During this part of England's history, the population must have

intermittently dropped, to recover a little, only to fall once again

Online Library Plague

as another
epidemic flared.

John Hatcher,
Plague,
population and

Online Library Plague

the English And
economy . . .

John Hatcher,
the author of
Plague,
Population and
the English
Economy,

1348-1530 (1977)

argues that the
death-rate of
the clergy was
lower than that
of those who had

Online Library

Plague

to endure bad living conditions. Hatcher studied the payment of death duties (heriots) during this period.
