The Borderline Parent - Surviving childhood with a BPD parent

Often, the most seriously affected are the children of a mother with borderline personality disorder, as the disorder interferes with normal, healthy parenting behaviors and parent-child dynamics, while increasing the risk of environmental instability, drug and alcohol exposure, and poor family cohesion. As a result, the very foundation of your formative psychosocial development may be compromised, leaving you vulnerable to ongoing psychological, behavioral, and interpersonal difficulties ...

Being Raised by a Mother With Borderline Personality ...

A diagnosis of BPD doesn't define you as a person or a mother. Many experts view borderline personality as a trauma response rather than a disorder. This reframing can help patients navigate the healing process from a non-judgmental perspective. Through time, perseverance, and hard work, you can fully recover.
