The System Operation  
Guideline is one of the  
network codes/guidelines  
drafted under the Third  
Energy Package. In 2015, the  
European Commission, ACER  
and ENTSO-E agreed to merge  
the three operational  
network codes into a single  
System Operation Guideline  
during their preparatory  
work for Comitology.

As always, system updates occur automatically for security. Periodically, Windows checks for updates and installs them so you do not have to do anything. To update windows manually, click on the Start button and go to Settings -> Update & Security -> Windows Update, and select Check for updates (look up the manual for more info).
