The basis for the 15 Minute Movie Method is that all movies can be divided into eight distinct segments. Since the average movie is 120 minutes long, these eight segments roughly correspond to 15 minutes each. Of course, all movies differ slightly in the length of each segment, but the general principles holds firm. All movies consist of eight segments that are roughly 15 minutes in length (for a 120 minutes movie).

If you've always wanted to write a screenplay or a novel, you may be wondering, “ What makes a great story? ” It's not just interesting characters, memorable dialogue, or explosive action scenes. What makes a great screenplay (or novel) is a great story. Every great story, from classic novels and stage plays to today's modern films, follow the same basic, proven story structure that alternates between contrasting problems and solutions to maintain and maximize suspense. In the traditional three Act structure, a story looks like this: Act I -- Exposition Act II -- Rising Action Act III -- Climax Act I and Act III are roughly the same length (corresponding to a 30-minute length in a 120-minute screenplay), but Act II is typically twice as long as either Act I or Act III. The result is that the traditional three Act structure sets you up for failure by forcing you to write a huge chunk of your story without any guidelines whatsoever. In contrast, a four Act structure makes each Act manageable while also providing the necessary contrast to create a compelling story. Stories are interesting and suspenseful because they alternate between problems facing the hero followed by solutions that the hero achieves. In the four Act structure, a story looks

like this: Act I -- Exposition Act IIa -- Positive Rising Action Act IIb -- Negative Rising Action Act III -- Climax Another way to look at this four part story structure is as follows: Act I -- Problem facing the hero Act IIa -- Hero solves the problem and appears to achieve success Act IIb -- New problems occur Act III -- Hero finally solves the problem Let's look at how this four part story structure works in “ Star Wars ” : Act I -- (Problem) Luke is stuck in a dead end life on his uncle's farm Act IIa -- (Solution) Luke leaves with Obi-wan to deliver the stolen Death Star plans Act IIb -- (Problem) Luke gets trapped on the Death Star Act III -- (Solution) Luke blows up the Death Star The four Act structure clearly lets you tell a story with alternating problems and solutions, which is how you generate suspense to keep an audience glued to the edge of their seats. Notice that with Act IIa, the action continues to rise, but in a positive direction. Yet in Act IIb, the action also continues to rise, but in a negative direction. This subtle difference is what the typical three Act structure fails to identify, which is why the three Act structure so easily misleads writers to create less than compelling stories. Once you understand how this four part story structure works, you can use it as a guide to help shape your story into a well-crafted screenplay. “ The 15-Minute Movie Method ” isn't a formula for writing a story, but a set of guidelines that you can test for yourself with your own favorite movies. By following “ The 15-Minute Movie Method ” guidelines, you can learn how to structure your screenplay to tell a compelling, intriguing story with any idea. You'll learn the four basic parts of any story, how to divide your screenplay into eight, 15-minute segments that each tell a mini-story, what type of information each story segment

needs to show the audience, how the beginning and end of your story is related, how to create the toughest villain for your particular hero, who the most important character of your story really is (Hint: it's not your hero), and much more with specific exercises that anyone can follow whether you're a novice trying to write a first screenplay or a veteran screenwriter who needs to fix a problem with an existing screenplay. By taking you step-by-step through the process of turning a good idea into a well-structured story, " The 15-Minute Movie Method " can show you how to write a screenplay with less hassle, frustration, and confusion so you can spend more time actually writing and enjoying the process of creating the story that you want to share with the world.

"How to Write a Great Script with Final Draft 9" is not a typical computer book tutorial. Flip open any computer book and you'll typically see a thick tome crammed with information about every possible feature of a program in exhaustive detail. Such comprehensive detail makes most computer books about as exciting to read as a dictionary. Nobody really wants to learn how to use any particular program. What people really want to learn is how to get specific results from using a particular program. Chances are good that your goal in life isn't to learn how to use Final Draft 9. Instead, you probably really want to learn how to write the best screenplay possible with the least amount of hassle. To achieve that goal, you want to use Final Draft 9 as a tool to achieve your dream of writing a screenplay that you can sell. That's why this book won't teach you how to become a Final Draft 9 expert. What

this book will teach you is how to plan, organize, and write a screenplay using Final Draft 9 as a tool to make your task easier. Notice the huge difference? You want to be a screenwriter, not a Final Draft 9 computer expert. This book won't overwhelm you by teaching every possible feature in Final Draft 9. Instead, this book will teach you the more useful features of Final Draft 9 to make you a more effective screenwriter. Once you learn the most common commands of Final Draft 9, you'll have the confidence to learn the more advanced features that the program offers. Not only will you learn how to use Final Draft's most common features, but you'll also learn why to use them and how they can help you organize and write a more effective screenplay. To use Final Draft most effectively, you need to know how to develop a story. Having a great screenwriting program like Final Draft 9 is fine, but if you don't know what to write, then you won't be able to take advantage of Final Draft 9's writing, formatting, and editing features. Although Final Draft works as an excellent screenplay formatting word processor, that's actually the last feature you want to use. Where most people go wrong is that they focus first on writing their screenplay without knowing what to write or taking time to organize their ideas before they write. Think of screenwriting like planning a vacation. You could just show up at the airport and hop on any plane, but chances are good it won't take you where you want to go. Likewise if you start writing a script without any planning, you'll likely waste time writing an rambling and incoherent screenplay. At this point, formatting your screenplay perfectly means nothing if it's not structured to tell a compelling story in the first place. So this book will teach you how to write screenplays using Final Draft

The Fifteen Minute Rule sets out to help us tackle those things that we are always putting off: starting an exercise regime, looking for a new job, doing our tax returns or learning a new skill. Or perhaps doing something to improve the quality of life, by learning to fight depression or confront an annoying habit. Perhaps it's simply clearing the huge pile of clutter from your desk. Whatever it is, all you need is fifteen minutes and before you know it, some weeks later, you have accomplished a task you couldn't bring yourself to start. The hardest thing to overcome when you're trying to start something daunting and new is to actually start. That mountain of paperwork in front of you that looks like it will take hours to go through and hours of mind-numbing sorting is hard to contemplate for most - but fifteen minutes isn't. Fifteen minutes is manageable and can bring minor and major results, each one providing satisfaction and a boost in self-esteem. This book is for those people who need instant

The great challenge in writing a feature-length screenplay is sustaining audience involvement from page one through 120. Screenwriting: The Sequence Approach expounds on an often-overlooked tool that can be key in solving this problem. A screenplay can be understood as being built of sequences of about fifteen pages each, and by focusing on solving the dramatic aspects of each of these sequences in detail, a writer can more easily conquer the challenges posed by the script as a whole. The sequence approach has its foundation in early Hollywood cinema (until the 1950s, most screenplays were formatted with sequences explicitly identified), and has been rediscovered and used effectively at such film schools as the University of Southern California, Columbia University and Chapman University. This book exposes a wide audience to the approach for the first time, introducing the concept then providing a sequence analysis of eleven significant feature films made between 1940 and 2000: *The Shop Around The Corner* / *Double Indemnity* / *Nights of Cabiria* / *North By Northwest* / *Lawrence of Arabia* / *The Graduate* / *One Flew Over the Cuckoo's Nest* / *Toy Story* / *Air Force One* / *Being John Malkovich* / *The Fellowship of the Ring*
