Efforts were made to recruit the Welsh in 1188, suggesting contemporary appreciation for Welsh fighting skills, even though crusaders from Wales have been overlooked in modern studies. By looking at patterns of participation this study shows how domestic warfare influenced the desire and willingness to join the crusade, and the effect of such absences on the properties of those who did go.

Examines why anti-Muslim sentiment is on the rise and offers ways to defuse the intolerance.

Powerful critique of UK and US surveillance and repression of Muslims and prosecution of homegrown terrorism The new front in the War on Terror is the "homegrown enemy," domestic terrorists who have become the focus of sprawling counterterrorism structures of policing and surveillance in the United States and across Europe. Domestic surveillance has mushroomed-at least 100,000 Muslims in America have been secretly under scrutiny. British police compiled a secret suspect list of more than 8,000 al-Qaeda "sympathizers," and in another operation included almost 300 children fifteen and under among the potential extremists investigated. MIS doubled in size in just five years. Based on several years of research and reportage, in locations as disparate as Texas, New York and Yorkshire, and written in engrossing, precise prose, this is the first comprehensive critique of counterradicalization strategies. The new policy and policing campaigns have been backed by an industry of freshly minted experts and liberal commentators. The Muslims Are Coming! looks at the way these debates have been transformed by the embrace of a narrowly configured and ill-conceived anti-extremism.

Grasping this vision honored by Judaism, Christianity, and Islam alike includes recognizing the dangers of zealous violence, the illusions of current crusading, and the promise of peaceful coexistence under international law.

Goldberger's War chronicles one of the U.S. Public Health Service's most renowned heroes--an immigrant Jew who trained as a doctor at Bellevue, became a young recruit to the federal government's health service, and ended an American plague. He did so by defying conventional wisdom, experimenting on humans, and telling the South precisely what it didn't want to hear.

From New York Times bestselling, award-winning author Ann Packer, a "tour de force family drama" (Elle) that explores the secrets and desires, the remnant wounds and saving graces of one California family, over the course of five decades. Bill Blair finds the land by accident, three wooded acres in a rustic community south of San Francisco. The year is 1954, long before anyone will call this area Silicon Valley. Struck by a vision of his future family, Bill buys the property and proposes to Penny Greenway, a woman whose yearning attitude toward life appeals to him. In less than a decade they have four children. Yet Penny is a mercurial housewife, overwhelmed and undersatisfied, chafing at the conventions confining her. Years later, the three oldest Blair children, adults now and still living near the family home, are disrupted by the return of the youngest, whose sudden presence sets off a struggle over the family's future. One by one, they tell their stories, which reveal Packer's "great compassion for her characters, with their ancient injuries, their blundering desires. The way she tangles them perfectly, painfully captures the tumult of selves within a family" (MORE Magazine). Reviewers have praised Ann Packer's "brilliant ear for character" (The New York Times Book Review) and her "naturalist's vigilance for detail, so that her characters seem observed rather than invented" (The New Yorker). Her talents are on dazzling display in The Children's Crusade, "an absorbing novel that celebrates family even as it catalogs its damages" (People, Book of the Week). This is a "superb storyteller" (San Francisco Chronicle), Ann Packer's most deeply affecting book yet, "tragic and utterly engrossing" (O, The Oprah Magazine).

The castles built by the Crusaders, Hospitallers, Venetians and Genoese in Cyprus, Greece, the Aegean, and on the Black Sea served to defend against a complex array of constantly changing threats: Mamluks, Catalan mercenaries, Ottoman Turks, Byzantines, independent Islamic states, Timur-i-Lenk, and widespread piracy, to name but few. The resulting fortifications some inherited from conquered territories of the former Byzantine empire, some built from scratch were very different to those found in the Middle East. This superbly illustrated book explores their design, development and fate in detail, documenting the rich architectural heritage of this region and its complex history.

A biography of the blind and deaf woman who rose above her physical disabilities to international renown and helped other handicapped persons to live fuller lives.

An authoritative history of the overlooked youth activists that spearheaded the largest protests of the Civil Rights Movement and set the blueprint for future generations of activists to follow. Some of the most iconic images of the Civil Rights Movement are those of young people engaged in social activism, such as children and teenagers in 1963 being attacked by police in Birmingham with dogs and water hoses. But their contributions have not been well documented or prioritized. The Young Crusaders is the first book dedicated to telling the story of the hundreds of thousands of children and teenagers who engaged in sit-ins, school strikes, boycotts, marches, and demonstrations in which Dr. Martin Luther King Jr. and other national civil rights leaders played little or no part. It was these young activists who joined in the largest civil rights demonstration in US history: the system-wide school boycott in New York City on February 3, 1964, where over 360,000 elementary and secondary school students went on strike and thousands attended freedom schools. Later that month, tens of thousands of children and teenagers participated in the "Freedom Day" boycotts in Boston and Chicago, also demanding "quality integrated education." Distinguished historian W. F. Franklin illustrates how their ingenuity made these and numerous other campaigns across the country successful in bringing about the end to legalized racial discrimination. It was these unheralded young people who set the blueprint for today's youth activists and their campaigns to address poverty, joblessness, educational inequality, and racialized violence and discrimination. Understanding the role of children and teenagers transforms how we understand the Civil Rights Movement and the broader part young people have played in shepherding social and educational progress, and it serves as a model for the youth-led "reparatory justice" campaigns seen today mounted by Black Lives Matter, March for Our Lives, and the Sunrise Movement. Highlighting the voices of the young people themselves, Franklin offers a redefining narrative, complemented by arresting archival images. The Young Crusaders reveals a radical history that both challenges and expands our understanding of the Civil Rights Movement.

"Go back to where you came from, you terrorist!" This is just one of the many warm, lovely, and helpful tips that Wajahat Ali and other children of immigrants receive on a daily basis. Go back where exactly? His hometown in the San Francisco Bay Area, where he can't afford rent? Awkward, left-handed, suffering from OCD, and wearing Husky pants, Ali grew up on the margins of the American mainstream, devoid of Brown superheroes, where people like him were portrayed as goofy sidekicks, shop owners with funny accents, sweaty terrorists, or aspiring sweaty terrorists. Driven by his desire to expand the American narrative to include protagonists who look like him, he became a writer, and in the aftermath of the 9/11 terror attacks, an accidental activist and ambassador of all things Muslim-y. He uses his pen with turmeric-stained fingernails to fill in missing narratives, challenge the powerful, and booby trap racist stereotypes. In his bold, hopeful and hilarious memoir, Ali offers indispensable lessons and strategies to help cultivate a more compassionate America.
