This book offers fresh research and insights into the complex relationship between the press, war, and society in the 20th century, by examining the role of the newspaper press in the period c.1900–1960, with a particular focus on the Second World War. During the warfare of the 20th century, the mass media were used to sustain domestic morale and promote combatants' views to an international audience. Topics covered in this book include British newspaper cartoonists' coverage of the Russo- Japanese War, the role of the French press in Anglo- French diplomacy in the 1930s, Irish press coverage of Dunkirk and D- Day, government censorship of the press in wartime Portugal, the reporting of American troops in North Africa, and how the Greek press became the focus of British government propaganda in the 1940s. Particular attention is given to the role of the British press in the Second World War: its coverage of evacuation, popular politics, and D- Day; the war as seen through commercial press advertising; the wartime Daily Mirror; and Fleet Street's role as a 'national' press in wartime. This book explores how and why newspapers have presented wars to their readers, and the importance of the press as an agent of social and political power in an age of conflict. This book was originally published as a special issue of Media History.

Local newspapers can hold back the rising tide of political division in America by turning away from the partisan battles in Washington and focusing their opinion page on local issues. When a local newspaper in California dropped national politics from its opinion page, the resulting space filled with local writers and issues. We use a pre-registered analysis plan to show that after this quasi-experiment, politically engaged people did not feel as far apart from members of the opposing party, compared to those in a similar community whose newspaper did not change. While it may not cure all of the imbalances and inequities in opinion journalism, an opinion page that ignores national politics could help local newspapers push back against political polarization.

In contrast to other types of culture products such as books, documents, letters, novels and others that have been used by historians as historical sources.

For more than a century, local journalism has been taken almost for granted. But the twenty-first century has brought major challenges. The newspaper industry that has historically provided most local coverage is in decline and it is not yet clear whether digital media will sustain new forms of local journalism. This book provides an international overview of the challenges facing changing forms of local journalism today. It identifies the central role that diminished newspapers still play in local media ecosystems, analyses relations between local journalists and politicians, government officials, community activists and ordinary citizens, and examines the uneven rise of new forms of digital local journalism. Together, the chapters present a multi-faceted portrait of the precarious present and uncertain future of local journalism in the Western world.
