What keeps this book from being a 5 star, to me, is that it had a happy ever after type ending. I'm torn about it because this is a five year mission book, and of course every episode of that mission ends happily and so the author might have been compelled to have a happy ending.

After Captain James T. Kirk and the crew of the U.S.S. Enterprise come across a political union of planets and races much like the Federation, they are happy to accept their aid, but quickly come to question that decision.

Continuing the events detailed in Star Trek: Destiny: With the displacement and devastation wrought by the Borg, can the Federation survive? Fortune has smiled on Lieutenant Jasminder Choudhury, chief of security on the U.S.S Enterprise.™ She has survived. But her homeworld, Deneva, one of the planets targeted in the massive Borg invasion, has not. The entire surface has been wiped clean of everything, killing anyone who did not evacuate and rendering the planet uninhabitable. Choudhury is left to wonder whether her family was one of the displaced. Or are they all gone forever? The Enterprise is just one ship, and Jasminder Choudhury is just one officer, yet her story is being repeated over and over across the galaxy. Hundreds of thousands of displaced persons haunt the space ways, seeking comfort, looking for someplace safe, somewhere, anywhere to find solace. Captain Jean-Luc Picard is ordered to do everything he can to rescue and if need be to recover the lost souls from the Borg invasion. For the first time in generations, citizens of the Federation know want, uncertainty, and fear. Bloodied yet unbowed, the Federation now stands on the edge of a precipice. The captain of the Enterprise finds himself in the unenviable position of wondering whether it is true that those who can win a war well can rarely make a good peace.

Though she knows that her mother, Lwaxana, recently remarried to the Tavnian named Jeyal, she was unaware of the subsequent pregnancy -- and now Lwaxana's about to give birth. #57 STARFLEET CORPS OF ENGINEERS Centuries ago, the S.S. Mariposa transported two sets of colonists -- one a "back-to-nature" group called the Bringloidi, the other a collection of scientists -- to new worlds. Over a decade ago, the Starship Enterprise™ brought the colonies back together as a solution to two problems -- the Bringloidi had lost their home to solar flares, and the Mariposans faced a breeding crisis brought about by their use of cloning. However, the union has not been as fruitful as Captain Picard had hoped, and now the S.C.E. team of the U.S.S. da Vinci has been called in to solve the Mariposans problem -- but will the solution be even worse than the problem? OUT OF THE COCOON

Few films have been so keenly awaited or the subject of so much internet debate as the twelfth Star Trek movie -- the first since 2002 -- which is scheduled to be released in May 2009. Directed by J.J. Abrams, creator of cutting-edge cult television shows Lostand Alias, the film is expected to launch the Star Trekfranchise into a new stellar era. Going back to the very beginnings of the classic Star Trek, the film tells how James T. Kirk, the half-Vulcan Spock, Dr McCoy, engineer Montgomery Scott and crew members Chekov, Sulu and Uhura first came together as rookie Starfleet recruits, and how they embraced the destiny that would later send them out across the galaxy accompanied by the immortal words: 'These are the voyages of the Starship Enterprise...' A largely brand new cast including Chris Pine as Kirk, Zachary Quinto (Heroes) as Spock, Simon Pegg as Scotty, Karl Urban as McCoy alongside Eric Bana, Winona Ryder and Leonard Nimoy will bring Star Trekto a whole new audience, while at the same time Alan Dean Foster's novelization will enthrall both existing fans and a new generation of readers.
