Burgundy, Bordeaux, Champagne. The names of these and other French regions bring to mind time-honored winemaking practices. Yet the link between wine and place, in French known as terroir, was not a given. In The Sober Revolution, Joseph Bohling inverts our understanding of French wine history by revealing a modern connection between wine and place, one with profound ties to such diverse and sometimes unlikely issues as alcoholism, drunk driving, regional tourism, Algeria's independence from French rule, and integration into the European Economic Community. In the 1930s, cheap, mass-produced wines from the Languedoc region of southern France and French Algeria dominated French markets. Artisanal wine producers, worried about the impact of these "inferior" products on the reputation of their wines, created a system of regional appellation labeling to reform the industry in their favor by linking quality to the place of origin. At the same time, the loss of Algeria, once the world's largest wine exporter, forced the industry to rethink wine production. Over several decades, appellation producers were joined by technocrats, public health activists, tourism boosters, and other dynamic economic actors who blamed cheap industrial wine for hindering efforts to modernize France. Today, scholars, food activists, and wine enthusiasts see the appellation system as a counterweight to globalization and industrial food. But, as The Sober Revolution reveals, French efforts to localize wine and integrate into global markets were not antagonistic but instead mutually dependent. The time-honored winemaking practices that we associate with a pastoral vision of traditional France were in fact a strategy deployed by the wine industry to meet the challenges and opportunities of the post-1945 international economy. France's luxury wine producers were more market savvy than we realize.

There is no such thing as an alcoholic and there is no such disease as alcoholism! (as society understands it). Whether you agree with this statement or not, one thing is for sure, you will never see alcohol in the same light ever again after reading this book. Jason Vale takes an honest and hard hitting look at people's conceptions of our most widely consumed drug. Jason's major argument is there is no such thing as an 'alcoholic' and that we are conditioned to accept alcohol as a 'normal' substance in today's society despite the fact that it is the major cause of many of today's social problems and a wide range of health issues. This book is much more than a simple eye opener, it will: change the way you see alcohol forever; show you how to stop drinking; help you enjoy the process and enjoy your life so much more than you do now without having to drink alcohol. So open your mind and take a journey with Jason to explore the myths about the most used and accepted drug addiction in the world!

In April 2011, Lucy Rocca woke up in a hospital bed with no memory of how she had ended up there. After accepting that her drinking had spiralled out of control, she made the decision there and then to never touch alcohol again. However, the early days were a challenge, and Lucy began recording her journey in a blog as a way of helping herself move forward to a happy and sober future. For someone who defined herself by her love of drinking for over twenty years, letting go of the booze crutch was initially a challenge, but over time, Lucy began to realise how much happier she was living alcohol-free. Glass Half Full is the story of her journey from hopelessly devoted wine fiend to sober and truly happy for the first time in her adult life. As the founder of Soberistas.com, Lucy's blog also provides motivational and inspirational support for those seeking an alcohol-free life.

A guide to all kinds of addiction from a star who has struggled with heroin, alcohol, sex, fame, food and eBay, that will help addicts and their loved ones make the first steps into recovery "This manual for self-realization comes not from a mountain but from the mud...My qualification is not that I am better than you but I am worse." -Russell Brand With a rare mix of honesty, humor, and compassion, comedian and movie star Russell Brand mines his own wild story and shares the advice and wisdom he has gained through his fourteen years of recovery. Brand speaks to those suffering along the full spectrum of addiction—from drugs, alcohol, caffeine, and sugar addictions to addictions to work, stress, bad relationships, digital media, and fame. Brand understands that addiction can take many shapes and sizes and how the process of staying clean, sane, and unhooked is a daily activity. He believes that the question is not "Why are you addicted?" but "What pain is your addiction masking? Why are you running—into the wrong job, the wrong life, the wrong person's arms?" Russell has been in all the twelve-step fellowships going, he's started his own men's group, he's a therapy regular and a practiced yogi—and while he's worked on this material as part of his comedy and previous bestsellers, he's never before shared the tools that really took him out of it, that keep him clean and clear. Here he provides not only a recovery plan, but an attempt to make sense of the ailing world.
