SEIZE THE FIRE Shortly after revealing its union with the Federation's newest adversary—a coalition of galactic powers known as the Typhon Pact—the Gorn Hegemony suffers an ecological disaster that destroys the hatchery world of their critically important warrior caste. Fortunately, the Gorn had already been investigating traces of an ancient but powerful “quick terraforming” technology left behind by a long-vanished civilization. This technology, should it prove controllable, promises to restore their delicate biological and social status quo. But when a Gorn soldier prepares to use the technology to reshape the planet Hranrar into a new warrior-caste spawning ground, threatening to extinguish the native Hranrarii, he draws the unwanted attention of a mad Gorn trooper determined to bring the military caste into dominance. Meanwhile, as the U.S.S. Titan embarks upon a search for this potent technology in the hope of using it to heal the wounds the Federation sustained during the recent Borg crisis, Captain Riker must balance his responsibility for his crew's safety against the welfare of the Hranrarii and his duty to the Prime Directive. With a menacing Typhon Pact fleet nipping at his heels, Riker must not only stop the Gorn warriors but also plumb the secrets of an ancient terraforming artifact. But of everyone serving aboard Titan, Commander Tuvok may be the only one who understands how dangerous such planet-altering technology can be, even when used with the best of intentions. . . .

On a diplomatic mission to the planet Andor, Captain Picard and the crew of the Enterprise-E bear witness to the rank devastation resulting from the Borg invasion. With the reproductive issues that have long plagued the Andorian people reaching crisis level, avenues of research that at first held great promise have proven largely unhelpful, and may well indeed be worsening the problem. Despite the Federation's seeming inability to provide assistance and growing doubt over its commitment to a staunch, longtime ally, Andorian scientists now offer renewed hope for a solution. However, many segments of Andorian society are protesting this controversial new approach, and more radical sects are beginning to make their displeasure known by any means available. In response, President Nanietta Bacco has sent the Enterprise crew and a team of diplomats and scientists to Andor to convene a summit, in the hope of demonstrating that the Federation's pledge to helping Andor is sincere. But the Typhon Pact is watching, and their interests may very well lead the Andorian people down an even more treacherous path. . . .

Aspy for the Typhon Pact -- a new political rival of the Federation -- has stolen the plans for Starfleet's latest technological advance: the slipstream drive. To stop the Typhon Pact from unlocking its secrets Starfleet Intelligence recruits a pair of genetically enhanced agents: Dr Julian Bashir, of station Deep Space 9, and Sarina Douglas, a woman whose talents Bashir helped to develop -- and for whom he has long harboured passionate feelings. Bashir and Douglas must infiltrate a world controlled by the mysterious species known as the Breen, find the hidden slipstream project, and destroy it. Meanwhile, light-years away, Captain Ezri Dax and her crew on the USS Aventine play a dangerous game of cat and mouse with a Typhon Pact fleet that stands between them and the safe retrieval of Bashir and Douglas from hostile territory...

An original eBook novella set in the acclaimed Typhon Pact series! An original e-novella in the acclaimed Typhon Pact series! The Enterprise-E is on a diplomatic mission to the Talarian Republic, the last holdout in the Federation's efforts to expand the Khitomer Accords in response to the emergence of the Typhon Pact. In the wake of Andor's recent secession, the Federation is more concerned than ever with strengthening its alliances. The Talarians have been a tenuous potential partner at best, given the history of conflict and mistrust between them and the Federation. But the negotiations between Picard and the Talarians are disrupted by a growing public protest of those who are demanding greater rights—and before long, it becomes clear that the dissidents are not limiting themselves to nonviolent means...

William Riker, former first officer of the USS Enterprise in Star Trek: The Next Generation, takes command of the new USS Titan in this white-knuckled adventure perfect for longtime and new Star Trek fans. After almost a decade of strife against foes such as the Borg, the Cardassians, the Klingons, and the Dominion, the United Federation of Planets is at the dawn of a new era. Starfleet is renewing its mission of peaceful exploration, diplomacy, and the expansion of knowledge. Among the starships spearheading that endeavor is the USS Titan, commanded by Captain William T. Riker and manned by the most biologically varied and culturally diverse crew in Starfleet history. But their mission does not begin according to plan. In the wake of Star Trek: Nemesis, Praetor Shinzon, slayer of the Romulan Senate, is dead. The power vacuum created by his demise has put the Romulan Star Empire, longtime adversary of the Federation, at the brink of civil war. Competing factions now vie for control of their fragmenting civilization, and if the empire should fall, that entire area of the galaxy may destabilize. To restore order to the region, Titan's long-anticipated mission of exploration is delayed as Starfleet assigns Riker to set up power-sharing talks among the Romulan factions. But even as the first tentative steps are taken toward building a new Romulus, the remnants of the Tal Shiar, the dreaded Romulan intelligence service, are regrouping behind the scenes for a power play of their own. With no other help available, Riker and the Titan crew become the last hope to prevent the quadrant from falling into chaos.

wake of the assassination of the Praetor and the Senate, the Romulans have cleaved in two. While Empress Donatra has led her nascent Imperial Romulan State to establish relations with the Federation, Praetor Tal'aura has guided the original Romulan Star Empire toward joining the newly formed Typhon Pact. But numerous factions within the two Romulan nations vie for power and undivided leadership, and Machiavellian plots unfold as forces within and without the empires conduct high-stakes political maneuvers. Meanwhile, four years after Benjamin Sisko returned from the Celestial Temple, circumstances have changed, his hopes for a peaceful life on Bajor with his wife and daughter beginning to slip away. After temporarily rejoining Starfleet for an all-hands-on-deck battle against the Borg, he must consider an offer to have him return for a longer stint. Beset by troubling events, he seeks spiritual guidance, facing demons new and old, including difficult memories from his time in the last Federation-Tzenkethi war.

The first novel in a two-part Typhon Pact adventure set in the universe of Star Trek: The Next Generation! In the wake of the final Borg invasion, which destroyed entire worlds, cost the lives of sixty-three billion people, and struck a crippling blow to Starfleet, six nations adversarial to the United Federation of Planets—the Romulan Star Empire, the Breen Confederacy, the Tholian Assembly, the Gorn Hegemony, the Tzenkethi Coalition, and the Holy Order of the Kinshaya—joined ranks to form the Typhon Pact. For almost three years, the Federation and the Klingon Empire, allied under the Khitomer Accords, have contended with the nascent coalition on a predominantly cold-war footing. But as Starfleet rebuilds itself, factions within the Typhon Pact grow restive, concerned about their own inability to develop a quantum slipstream drive to match that of the Federation. Will leaders such as UFP President Bacco and RSE Praetor Kamemor bring about a lasting peace across the Alpha and Beta Quadrants, or will the cold war between the two alliances deepen, and perhaps even lead to an all-out shooting war?

The second novel in a two-part Typhon Pact adventure set in the universe of Star Trek: The Next Generation. After the disastrous events in the Bajoran system, Captain Benjamin Sisko must confront the consequences of the recent choices he has made in his life. At the same time, the United Federation of Planets and its Khitomer Accords allies have come to the brink of war with the Typhon Pact. While factions within the Pact unsuccessfully used the recent gestures of goodwill—the opening of borders and a joint Federation-Romulan exploratory mission—to develop quantum-slipstream drive, they have not given up their goals. Employing a broad range of assets, from Romulus to Cardassia, from Ab-Tzenketh to Bajor, they embark on a dangerous new plan to acquire the technology they need to take control of the Alpha and Beta Quadrants. While UFP President Bacco and Romulan Praetor Kamemor work feverishly to reestablish peace, Captains Sisko, Jean-Luc Picard, and Ro Laren stand on the front lines of the conflict . . . even as a new danger threatens the Bajoran wormhole as it once more becomes a flashpoint of galactic history.

While searching the Beta Quadrant for an ancient civilization's long-lost quick-terraforming technology, Captain William T. Riker and the crew of the U.S.S. Titan face a difficult choice after discovering a terrible danger.

The Romulan Star Empire engages in all out war against Earth, determined once and for all to stop the human menace from spreading across the galaxy. Earth stands alone. The Coalition of Planets has shattered, with Vulcan, Andor, and Tellar abrogating the treaty. Their pledge to come to the mutual defense of any power that is attacked has been shunted aside. Horrified by how easily the Romulans can seize control of their advanced starships, turning them into weapons, Andor and Tellar have joined Vulcan on the sidelines. Humanity is now the only thing that stands between the Romulan Star Empire and total domination of the galaxy. To drive humans from the stars, the Romulans employ ruthless and murderous tactics...and even dare to strike on the Vulcan homeworld with the hopes of demoralizing their Vulcan brethren. Heartened by their victories, the Romulans carry their all-out war assault closer to the heart of humanity—Earth. But the tattered remains of Starfleet stand unwavering, with the resolution that never again would any enemy strike ever reach Earth. On the front lines of the Earth- Romulan War is the United Earth flagship, the Starship Enterprise. Her captain, Jonathan Archer, has seen his vessel of exploration become a battleship. Once hailed for his work bringing the Coalition of Planets into existence, Archer is now a pariah. Undaunted, the captain keeps fighting, searching for allies and determined to do his duty: to save Earth and forge a new federation of planets.
