The 1994 Rwandan genocide against the Tutsi was the signature moral horror of the late 20th century. Andrew Wallis

Download File PDF United Nations Headpaper

reveals, for the first time, the personal lives and crimes of the family group (' Akazu ') that destroyed their country and left one million dead. Wallis ' meticulous research uncovers a broad landscape of terror, looking back to the ' forgotten ' Rwandan genocide of the early 1960s and the failure by the

Download File PDF United Nations Headpaper

international community, to learn lessons of prevention and punishment, a failure that would be repeated thirty years later. Taking the rise and fall of Akazu personalities and their mafia-like network as its central strand, *Stepp'd in Blood* reveals how they were aided and abetted by western governments and the churches

Download File PDF United Nations Headpaper

for decades. And how post-1994, many successfully evaded international justice to enjoy comfortable retirements in the same countries that supported them when they were in power. Stepp'd in Blood publishes in the year of the 25th commemoration of the Rwandan Genocide.

Dilemmas of Internationalism is a new political history of the 1940s which charts and analyses the efforts of private internationalists to define US internationalism and promote the establishment of the United Nations. Internationalists hoped that the United States would shake off the fear of

Download File PDF United Nations Headpaper

entangling alliances that had characterised the nation's history, replacing isolationism and unilateralism with a new, involved and multilateral approach to foreign affairs. During and after World War II, a number of private individuals and organisations were at the forefront of the fight to change the nature of US foreign

Download File PDF United Nations Headpaper

policy. This book focuses in particular on the most important internationalist organisation: the American Association for the United Nations (AAUN), known as the League of Nations Association through 1944. It situates the AAUN in the vast network of private organisations promoting an internationalist foreign

Download File PDF United Nations Headpaper

policy during and after World War II, and analyses the connections between the AAUN and the US government and key public figures who proposed a more internationalist foreign policy. One of the most innovative aspects of Dilemmas of Internationalism is its focus on state-private interaction with regard to defining

Download File PDF United Nations Headpaper

internationalism. Most previous works on wartime internationalism neglect considerations of state-private interaction, or fail to significantly develop them. The study also acts as a corrective to the general neglect of state-private interaction during this period, turning attention away from the common focus on the Cold War

Download File PDF United Nations Headpaper

to the crucial phase during and immediately after World War II.

Beginning with the US entry into the War, this study continues through the onset of the Cold War to early 1948, ending with the passing of the Marshall Plan. By 1948, the path of US internationalism appeared firmly fixed by a Cold War framework, but

Download File PDF United Nations Headpaper

in 1941, US entry into the Second World War offered the opportunity to develop a more multilateral approach to foreign affairs, and create a more just and peaceful world. This book is a much-needed history of the attempt to seize that opportunity.

Download File PDF United Nations Headpaper

The view that international migration has no impact on the size of world population is a sensible one. But the author argues,

Page 42/52

Download File PDF United Nations Headpaper

migration from developing to more industrial countries during the past decades may have resulted in a smaller world population than the one which would have been attained had no international migration taken place for two reasons: most of recent migration has been from high to low birth-rate countries, and

Download File PDF United Nations Headpaper

migrants typically adopt and send back to their home countries models and ideas that prevail in host countries. Thus, migrants are potential agents of the diffusion of demographic modernity, that is, the reduction of birth rates among nonmigrant communities left behind in origin countries. This hypothesis is tested

Download File PDF United Nations Headpaper

with data from Morocco and Turkey where most emigrants are bound for the West, and Egypt where they are bound for the Gulf. The demographic differentials encountered through migration in these three countries offer contrasted situations- host countries are either more (the West) or less (the Gulf) advanced in their

Download File PDF United Nations Headpaper

demographic transition than the home country. Assuming migration changes the course of demographic transition in origin countries, the author posits that it should work in two opposite directions-speeding it up in Morocco and Turkey and slowing it down in Egypt. Empirical evidence confirms this hypothesis. Time series of

Download File PDF United Nations Headpaper

birth rates and migrant remittances (reflecting the intensity of the relationship kept by emigrants with their home country) are strongly correlated with each other. Correlation is negative for Morocco and Turkey, and positive for Egypt. This suggests that Moroccan and Turkish emigration to Europe has been

Download File PDF United Nations Headpaper

accompanied by a fundamental change of attitudes regarding marriage and birth, while Egyptian migration to the Gulf has not brought home innovative attitudes in this domain, but rather material resources for the achievement of traditional family goals. Other data suggest that emigration has fostered education in Morocco and

Download File PDF United Nations Headpaper

Turkey but not in Egypt. And as has been found in the literature, education is the single most important determinant of demographic transition among nonmigrant populations in migrants' regions of origin. Two broader conclusions are drawn. First, the acceleration of the demographic transition in Morocco and

Download File PDF United Nations Headpaper

Turkey is correlated with migration to Europe, a region where low birth-rates is the dominant pattern. This suggests that international migration may have produced a global demographic benefit under the form of a relaxation of demographic pressures for the world as a whole. Second, if it turns out that

Download File PDF United Nations Headpaper

emigrants are conveyors of new ideas in matters related with family and education, then the same may apply to a wider range of civil behavior.
