Part of the 'Haynes Service and Repair Manual Series', this title covers Volvo S40 and V50 diesel cars made between 2007 and 2013.

This first extensive study of the practice of blood transfusion in Africa traces the history of one of the most important therapies in modern medicine from the period of colonial rule to independence and the AIDS epidemic. The introduction of transfusion held great promise for improving health, but like most new medical practices, transfusion needed to be adapted to the needs of sub-Saharan Africa, for which there was no analogous treatment in traditional African medicine. This otherwise beneficent medical procedure also created a “royal road” for microorganisms, and thus played a central part in the emergence of human immune viruses in epidemic form. As with more developed health care systems, blood transfusion practices in sub-Saharan Africa were incapable of detecting the emergence of HIV. As a result, given the wide use of transfusion, it became an important pathway for the initial spread of AIDS. Yet African health officials were not without means to understand and respond to the new danger, thanks to forty years of experience and a framework of appreciating long-standing health risks. The response to this risk, detailed in this book, yields important insight into the history of epidemics and HIV/AIDS. Drawing on research from colonial-era governments, European Red Cross societies, independent African governments, and directly from health officers themselves, this book is the only historical study of the practice of blood transfusion in Africa.

For the first time in one volume, Phil Edmonston, Canada’s automotive “Dr. Phil.” covers all used vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years.

This specialty buying guide presents easy-to-use historical profiles of some 200 models--cars, trucks, minivans, sport utility vehicles--giving readers a comprehensive view of each model as a used car.

"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." – The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.

A guide to buying a used car or minivan features information on the strengths and weaknesses of each model, a safety summary, recalls, warranties, and service tips.
